Manufacturer's Suggested List Price shown. Retail prices may vary by dealer. Unless stated otherwise, taxes, freight, setup, delivery and other dealer specific charges not included in the pricing. Options/items noted with anything other than price will have additional costs. Pricing, availability, and specifications subject to change without notice. Special program pricing may be available on certain models. See dealer for details. Prices shown are in U.S. dollars and valid only in the U.S.

## E-SERIES ADTS

## DESIGNED BY DEERE. REFINED BY YOU.

To design our new 260E and 310E Articulated Dump Trucks (ADTs), we spoke with the experts — equipment owners and operators just like you. Through Customer Advocate Groups (CAGs), they told us exactly what they need in an ADT. We listened and responded with ground-level serviceability. A quieter, pressurized Deere-designed cab. Standard adaptive suspension. Auto dump and hill hold that eliminate repetitive cycling motions. Onboard diagnostics that help keep the operator in the know and on the go. And smart features such as auto dump, on-the-fly auto-differential lock, tire-pressure monitoring, and onboard payload weighing. All to boost productivity and uptime, while helping to keep operating costs down.

## **SOUND CHOICE**

### QUIET, TOUGH E-SERIES ADTS ARE A GOOD BET.

Designed and manufactured with state-of-the-art tools and techniques by a quality-conscious workforce at our facility in Davenport, Iowa, E-Series ADTs are exceptionally reliable and built with safety in mind. New Deere-designed cab is pressurized to keep things quiet, helping operators stay comfortable and alert, all shift long.

## Strong, lightweight dump body and chassis

High-alloy-steel dump body and chassis deliver superior strength and rigidity without adding excess weight.

#### Automatic dump control

At the touch of a button, auto dump shifts the transmission to neutral, sets the service brakes, increases engine speed, and initiates body raise.

#### **Optional cooling**

Heavy-duty, purpose-built axles are lubricated, filtered, and cooled, for longer life.

### Fuel-efficient cool-on-demand fan with reversing option

Engine, hydraulic, transmission, and service-brake coolers employ a hydraulically driven fan that runs only as fast or as often as necessary, helping conserve power and fuel. Reversible option back-blows cooler cores, minimizing the need for manual cleanout and increasing uptime and productivity in off-road conditions.

## Powerful, fuel-efficient FT4 engines

Rugged EPA Final Tier 4 (FT4)/ EU Stage IV PowerTech™ diesels meet rigid emission regulations, enabling you to work without compromising power, reliability, or ease of operation. Our field-proven technology is simple, reliable, fully integrated, and fully supported.

## SAFETY FACTOR

# HELPING KEEP OPERATORS AND JOBSITES SAFE IS AI WAYS A PRIORITY.

Whether you are working at a Mine Safety and Health Administration (MSHA)-regulated mining site, a quarry, or a dirt job, safety is always job one. Features that enhance the safety of these ADTs include an easy-release remote park brake, auto shutdown, reverse camera, and ground-level service, to name only a few.

#### Simple ground-level service

A Deere exclusive, all daily checks and periodic service are accessible from ground level, including refilling both fuel and diesel exhaust fluid (DEF). There is no need to mount the machine.

#### Lighting the way

Front and rear worklights and optional high-mounted LED lights help illuminate the site. Stairway lights are push-button operated from inside the cab to light machine exits and also from ground level when going to work in dark environments. Stairs are evenly spaced, for more surefooted passage.

#### Release the park brake remotely

Remote park-brake release allows the park brake to be disengaged without climbing under the machine, for increased safety should towing be necessary.

#### Rollover protection

When enabled through the monitor, the operator can limit the percentage the rear chassis is off-level when unloading. If the limit is exceeded, the dump body will not raise and a message will appear on the monitor instructing the operator to reposition the ADT.

#### Match gear to the incline

Accelerameter reads the slope of the ADT so the gear can be matched to the incline and the machine speed held if needed.

#### Secure dump-body service

Safety bar locks the dump body to the mainframe and disengages the hydraulics when the dump body is in a fully upright position, for safer servicing.

#### Streamlined mirror-bow design

Mirror-bow redesign won't obstruct visibility or impede access to the engine bay. New lights on the mirrors help bring onboard weighing into clear focus.

#### Reverse camera

Standard reverse camera with choice of display gives the operator visibility to obstacles in the direct path of the machine while backing up.

#### Automatic shutdown

Programmable auto shutdown turns off the engine after an operator-selected period of inactivity, reducing jobsite noise while also conserving fuel and machine hours.

#### **Auto-horn alerts**

When activated, standard auto horn will automatically sound when the ADT is started, moves forward or in reverse, or changes direction, to help comply with MSHA regulations.

### MAKE A HAUL

#### MOVE MORE MATERIALS AT LESS COST.

E-Series ADTs deliver impressive power and torque for exceptional power-to-weight ratios and fast cycles. So you can keep working on steep slopes, through deep ruts, and in slippery muck. And haul more for less cost per ton.

#### MATCH YOUR ADT TO YOUR FLEET

	260E ADT	310E ADT
	# OF LOADING PASSES TO F	ILL ADT TO CAPACITY
300G LC EXCAVATOR	5	5–6
350G LC/380G LC EXCAVATOR	4–5	5
470G LC EXCAVATOR	3	4
744K-II LOADER	4–5	5

All capacities stated are with optional tailgate and standard bucket.

#### No more in-field weight calibrations

Optional onboard weighing system is factory calibrated to within two-percent accuracy when payload exceeds 50 percent. Displayed on the monitor during loading, with real-time load and tonnage data transmitted via JDLink™, access to accurate payload values removes the guesswork from daily production levels, increasing uptime and efficiency.

#### Tackle tough terrain

Interaxle Differential Lock (IDL) transmits 50 percent of available torque to the forward axle and 50 percent to the two rear axles, simplifying operation. Or it can be engaged on-the-fly while slipping, for smoother navigation of tough jobsites.

#### Wide-profile-tire option

Among a variety of tire options, a wide-profile design provides superior flotation in soft ground conditions.

#### Smooth, optimized shifting

Purpose-built transmission includes eight forward and four reverse gears to speed cycles and expand the working range across a wide range of jobsite conditions.

#### Downhill-descent control provides steadiness on slopes

Eliminate guesswork with standard automatic descent control. Match the gear to the downhill incline, take your foot off the throttle, and let the transmission retarder take over, helping reduce service-brake wear, operator fatigue, and maintenance costs.

#### Smooth, stable ride

Standard adaptive suspension system adjusts to the jobsite, stabilizing the ride and the cab, for operator comfort no matter the machine cycle, empty or loaded.

### UP AND RUNNING

### YOU ASKED FOR IT.

#### Consistent stopping power and maximum brake life

Designed specifically for E-Series ADTs, an industry-leading transmission retarder confidently slows the truck. Outboard wet-disc brakes in all three axles are at the ready when service brakes are needed.

#### Easy lube

Greaseless pins and bushings are used throughout except in the articulation joint and oscillation area, so only eight grease fittings need weekly attention. By customer request, those items employ lube banks that bring difficultto-reach zerks within easy reach. Convenient lube and maintenance chart helps confirm that nothing gets overlooked.

#### Tire-pressure/temperaturemonitoring system

Integrated tire-pressure/ temperature-monitoring system comes standard to help boost tire life, productivity, and fuel efficiency. If pressure drops by 10 percent, a passive alarm appears on the monitor. Further decreases or overheating trigger an audible warning, and an email alert is sent via JDLink.

#### Easy-to-service DPF

Ash-service intervals for the diesel particulate filter (DPF) are condition based, meaning the machine will notify the operator before service is required. Typically, ash service is not necessary until the first engine overhaul. Machine application, regular maintenance practices, and type of lubricating oil impact ash-service intervals.

#### Get valuable insight with

#### JOHN DEERE WORKSIGHT™

John Deere WorkSight is an exclusive suite of telematics solutions that increases uptime while lowering operating costs. At its heart, JDLink™ Ultimate machine monitoring provides real-time utilization data and alerts to help you maximize productivity and efficiency while minimizing downtime. Remote diagnostics enable your dealer to read codes and record performance data without a trip to the jobsite.

#### Keep downtime down with

#### **ULTIMATE UPTIME**

Ultimate Uptime, featuring John Deere WorkSight, is a customizable support solution available exclusively from your Deere dealer. This flexible offering maximizes equipment availability with standard John Deere WorkSight capabilities that can help prevent future downtime and speed repairs when needed. In addition to the base John Deere WorkSight features, our dealers work with you to build an uptime package that meets the specific needs of your machine, fleet, project, and business, including customized maintenance and repair agreements, onsite parts availability, extended warranties, fluid sampling, response-time guarantees, and more.

#### Fast periodic maintenance

Available quick-service fluidevacuation points, standard easy-access vertical filters, and environmental drains help speed periodic maintenance and increase uptime.

#### **Color-coded service points**

Service points and sample ports are color-coded to help speed preventive maintenance and troubleshooting. Additional diagnostics including temperature and pressure are accessible through the monitor.

## Conveniently located remote jumper post

Jumper posts are easily accessible from ground level should a booster pack need to be hooked up to a dead battery.

#### Streamlined mirror-mounting design

New mirror-bow design increases visibility, reduces vibration, and enables walk-through access to the engine compartment.

# SPECIFICATIONS SPECIFICATIONS

Engine	260E
Manufacturer and Model	John Deere PowerTech™ PSS 6090
Non-Road Emission Standards	EPA Final Tier 4/EU Stage IV
Configuration	Inline 6 series turbocharger with exhaust gas recirculation (EGR) and selective catalytic reduction (SCR)
Valves per Cylinder	4
Displacement	9.0 L (549 cu. in.)
Net Peak Power (ISO 9249)	239 kW (321 hp) at 1,900 rpm
Net Peak Torque (ISO 9249)	1543 Nm (1,138 lbft.)
Aspiration	Turbocharged and charge air cooled
Fuel System	High-pressure common rail, with 10- and 2-micron filtration and water separator
Cold-Start Aid	Optional ether start and block heater (110 and 220 volt, depending on location); factory-option diesel-fired coolant heater
Cooling	, , , , , , , , , , , , , , , , , , , ,
Engine Cooling	Liquid cooled with single-pass radiator, remote pressurized coolant tank, and charge air cooler
Powertrain	
Transmission	8-speed forward, 4-speed reverse, countershaft/planetary type with integral retarder and torque-proportioning differential
Retarder	Integral, gear dependent, hydrodynamic, oil-to-air cooled, variable, fully automatic
Differential	Torque-proportioning, planetary-type, interaxle differential lock (IDL) with multi-disc clutch
Output Torque Split	32% front / 68% rear
Shift Controls	Fully automatic, electronically modulated powershift, load-speed adaptive with gear-skip and gear-hunting protection
Operator Interface	Push-button F-N-R, selectable speed- and gear-range limits, selectable retarder aggressiveness, downhill-descent control,
Operator interrace	and gear-hold
Speeds	Forward Reverse
Gear 1	
	6 km/h (3.7 mph) 6 km/h (3.7 mph)
Gear 2	8 km/h (5.2 mph) 8 km/h (5.2 mph)
Gear 3	11 km/h (6.8 mph) 11 km/h (6.8 mph)
Gear 4	16 km/h (9.9 mph) 16 km/h (9.9 mph)
Gear 5	23 km/h (14.3 mph) —
Gear 6	32 km/h (19.9 mph) —
Gear 7	45 km/h (28.0 mph) —
Gear 8	55 km/h (34.2 mph) —
Axles	
Differential	Helical transfer gears, spiral bevel, hydraulically actuated multi-disc cross-axle differential lock (CDL)
Final Drive	Extreme-duty mid-board-mounted planetary standard; cooled and filtered oil optional
Brake System	
Service	Dual-circuit, hydraulically actuated, wet multi-disc brakes with optional axle cooling and filtration system
Parking	Spring-applied hydraulically released, driveline-mounted, dry-disc with self-adjusting wear pad
Auxiliary	Fully automatic; transmission mounted, gear dependent; hydrodynamic retarder with selectable levels
Hydraulics	
Туре	Pressure-compensated load-sensing (PCLS), variable-displacement axial-piston main pump
Secondary Steering Pump	Ground-driven gear pump with hydraulic unloader valve
Dump Cylinders	Dual-acting, single-stage with heat-treated, chrome-plated, and polished cylinder rods; hardened steel replaceable bushings and pivot pins
Cycle Time	
Power Down	7 sec.
Raise Time	12 sec.
Electrical	
Voltage	24 volt
Number of Batteries	2 x 12 volt
Battery Capacity	1,400-CCA batteries (2)
Alternator	28 volt / 100 amp; optional 130 amp
Steering System	
Туре	2 hydrostatically actuated, double-acting hydraulic cylinders; ground-driven secondary steering pump
Angle	45 deg. side to side
Lock-to-Lock Turns	4.2
Suspension	·
Front	Semi-independent leading A-frame geometry with transverse link for lateral restraint and self-leveling oil-filled struts
	with inclusive nitrogen-charged accumulators
Rear	Load-equalizing, pivoting walking beams with laminated suspension blocks, tri-link geometry, and transverse links for lateral restraint
Dump Body	
Type	High-strength steel
Capacity	y
Struck	11.7 m³ (15.3 cu. yd.)
Heaped at 2:1 ISO 6483 Ratio	11.7 iii (13.3 cd. yd.) 15.0 m³ (19.6 cu. yd.)
•	
With Optional Tailgate	15.9 m³ (20.8 cu. yd.)
Maximum Dump Angle	70 deg.
Heater	Body ducted for optional exhaust heating

Tires/Wheels	260E	
Size and Type	23.5R25 radial earthmover	rs standard / 750/65R25 optional
Serviceability		
Ground-Level Service		
Fluids and Filters	Ground-level checks of eng fuel, and optional axle filte	gine, transmission, hydraulic oil, axle oil, and coolant levels; ground-level replacement of engine, ers
Coolers		rs for easy cleaning; optional reversing fans
Fluid Sampling		orts; optional quick-service ports
Refill Capacities

260E	310E	Engine
•	•	Meets EPA Final Tier 4 (FT4)/EU Stage IV emissions
•	•	John Deere PowerTech™ PSS 6090 — 9.0L (549 cu. in.) inline 6
•	•	Wet-sleeve cylinder liners
		Variable-geometry turbocharger (VGT)
•	•	External cooled exhaust gas recirculation (EGR)
	•	Dual-element air cleaner with dust-ejector valve
•	•	Precleaner
		High-pressure common-rail fuel injection
		Fuel/water separator
		Ground-level fueling and diesel exhaust fluid (DEF) fill
		Fast fill
		Serpentine drive belt with automatic tensioner
		Ether start aid (recommended below –1 deg. C [30 deg. F])
		Block heater (recommended below –18 deg. C [0 deg. F]
•		Diesel-fired coolant heater (DFCH) (required below –25 deg. C [–13 deg. F])
		Programmable auto-shutdown
•	•	Automatic turbo cool-down/shutdown timer
		Flat-black exhaust stack
	<b>A</b>	Chrome exhaust stack
		Severe-duty fuel filter
	<b>A</b>	Severe-duty fuel filter with heater
		Cooling
•		Dual hydraulically driven, side-mounted fans
•	•	Side-mounted radiator, charge-air cooler, air-conditioner condenser, fuel cooler, transmission cooler, and hydraulic cooler
		Swing-out coolers
		Integral engine oil cooler
		Remote pressurized coolant reservoir
		John Deere Cool-Gard™ II long-life engine coolant
		Fan guard
		Reversing fans

260E	310E	Powertrain
20UE	3 TUE	Lockup torque converter
		Adaptive shift control
-		Gear-hold switch
•	•	Integral transmission input retarder
	•	Automatic engaging retarder with selectable aggressiveness
•	•	Countershaft transmission with integral interaxle differential
		Planetary interaxle locking differential with 33-percent/
		67-percent nominal output torque split
		Ground-level transmission-oil-level sight glass
•	•	Transmission diagnostic ports
		Remote-mounted spin-on transmission oil filters
•	•	Hydraulically locking differentials
		Differential lock floor switch
•	•	Automatic traction control with manual override
		Wet-disc brakes on all 3 axles
•		Spring-applied, hydraulically released, dry-disc park brake
		Axle filtration with remote-mounted filter
•	•	Axle oil-temperature sensing
		Electrical System
•	•	24-volt system voltage
		100-amp alternator
	<b>A</b>	130-amp alternator
		Solid-state electrical distribution system
•	•	Battery disconnect
		Batteries, 2 x 1,400 CCA
•		Drive lights
		Stair and service lights
	<b>A</b>	Deluxe halogen work lights, front and rear
		Deluxe LED work lights, front and rear
•	•	LED rear turn signals/brake lights
		Electric horn
		Reverse alarm
		Beacon/strobe light
		24-volt to 12-volt 15-amp converter
		24-volt to 12-volt 25-amp converter

# Additional equipment (continued)

260E	310E	Hydraulic System
		Closed-center, load-sensing system
		Axial-piston, variable-displacement main pump
		Single-stage, dual-acting, dump-body tip cylinders
		Electrohydraulic dump-body control
		Steering System
•		Ground-driven secondary steering pump
		Operator Station
		ROPS/FOPS certification
		Keyless start
		Tilt cab
		Programmable dump-body control settings
		Air conditioner
		Heater
•	•	AM/FM radio/CD player
		AM/FM radio/CD player with satellite radio and Bluetooth®
•	•	Rear window guard
	•	Wiper/washer with intermittent control
	<b>A</b>	Rear windshield wiper
		Tilt and telescoping steering wheel
•		Fully adjustable, air-suspension, heated, high-back cloth
		and leather seat
		Air-suspension, low-back, cloth seat
		76-mm (3 in.) retractable operator seat belt
		Foldaway trainer seat with retractable seat belt
		12-volt power outlet
		Cup holders
		Reverse camera in main monitor
		Secondary reverse camera monitor
		Ashtray and 12-volt cigarette lighter
		Electric adjustable and heated mirrors
		Full-width retractable sun visor
		Cab precleaner
		Monitor: Speedometer / Fuel gauge / Transmission oil
		temperature gauge / Engine coolant temperature gauge /
		Gear indicator / Tachometer / Battery voltage / Hour meter /
		Odometer / Fuel consumption / Trip counter / Trip timer /
