## A HERITAGE OF HARD WORK SINCE 1945.

For seventy years, Mahindra has proudly lived in the trenches and built a legacy of hard work.

And it all began in India, where Mahindra designed and manufactured the iconic 1947 Willys Jeep. Since then, Mahindra has forged its way into other world-wide markets like steel, tractors, aerospace, clean energy and more.

In 1994, Mahindra moved into the North America market. Its humble beginnings were the seeds of bigger things to come, according to one man from Tomball, TX, who believed in the brand's potential. He set out with one trailer and the will to "Rise", introducing a tractor with built-in value making Mahindra an industry leader.

Today, Mahindra is not only the fastest growing tractor brand in North America, it's the world's no. 1 selling tractor that now makes farm-tough, 4x4 utility vehicles.

Built in Batesville, Arkansas, Mahindra launched its first utility vehicle loaded with standard features like best-in-class power, performance, and comfort, and backed by the industry's longest and strongest warranty. Whether you're a weekend warrior or salt-of-the-earth farmer, Mahindra Utility Vehicles have offered the strength and reliability to tackle the toughest, most grueling chores.

EXPECT MORE.

It was no surprise to us that customers want the best 4x4 utility vehicle for the best value. The Mahindra Retriever delivers just that with its industry-leading features.

HAUL MORE.

- Haul up to 1,200 lb
- Up to 34 cubic feet of cargo volume (Long-bed model)
