Using a Ford vehicle without the Ford ambulance package with EPA special emergency vehicle emissions to produce an ambulance with special emissions voids the Ford warranty. Note 1: Stationary Elevated Idle Control (SEIC) has been integrated into the engine control module. Note 2: Engine calibration significantly reduces the possibility of depower mode when in stationary PTO operation. Note 3: Operator commanded regen allowed down to 30% of DPF filter full, instead of 100%. Note 4: Must meet the definition of an emergency vehicle, an ambulance or fire truck per 40 CFR 86.1803.01 in the federal register. Note 5: California code of regulations allows for the sale of federally certified emergency vehicles in California.</i> |      |  |            |
