MODULAR INGROUND AXLE ENGAGING LIFTS / 2 AND 3 POST SERIES / 70,000 - 105,000 LBS. CAPACITY

POWERED BY

RedFire THE INDUSTRY'S ONLY REMOTE-CONTROLLED WIRELESS SYSTEM

UNMATCHED LIFTING VERSATILITY, MOBILITY and FLEXIBILITY!

EXCLUSIVE RED FIRE TECHNOLOGY, THE MOD35 FLEX IS THE INDUSTRY'S FIRST AND ONLY REMOTE-CONTROLLED INGROUND LIFT.

MC335RC

MOD35 FLEX™ HANDHELD CONTROLS

The reinvented MOD35 FLEX™ remote-controlled lifting system is the next generation of heavy-duty inground lifts from Rotary. Exclusive RED FIRE technology means a faster set up, safer and easier operation with the ability to lift vehicles from anywhere in your bay. Go wireless with this industrial grade hand held controller and schedule more work with the confidence that you'll see a fast return on your investment.

WIRELESS ADVANTAGES

We took our industry-leading lift and added this game-changing feature giving you the added ability to customize the MOD35 FLEX for your service needs.

- Eliminates cord management issues
- Remote controlled lifting reduces inspection time
- Move freely around vehicle and bay during operation
- The interface works as MOD35 pendant-only control - no new training required
- Existing Rotary MOD30 and MOD35 inground lifts can be upgraded with RED FIRE power.

Easy to use controller shows each cylinder with indicator light and green light once cylinders are ready to go.

Controller includes:

- On / off power button
- Information screen
- Infinite speed control - up or down
- Single lower-to-lock button
- E-stop control
- Remote battery indicator
- Press Protect™ eliminates accidental button presses and preserves battery life
- Audible warning when operator is getting out of operational range
- Tile™ Technology Compatible - available application which helps locate and recover a missing remote

Shown: MOD35235CA2
70,000 lbs. capacity
2-post inground lift

Three-post models available for lifting tandem axle vehicles or articulated buses.
