SSI SCHAEFER

MATERIALS

- High density, polyethylene resin, UV-stabilized
- Made with 100% recyclable material
- Easy to clean

BODY

- Stable body that withstands 40 mph winds even when empty
- Smooth surface inside and out for easy cleaning
- Structural reinforced front rim with gussets and ribs to accept comb lifter and fully automated service
- Slight conical shape
- 3/8" continuous bottom wear strip to increase cart longevity
- 100% water tight design

LIDS

- Watertight, snug-fitting lid overlaps the container rim
- Locking lids available
- Factory installed
- Recycling lids available for paper slot or bottle/can slot
- Lids can be hot stamped with serial number or other information

HINGES AND HANDLES

- Sturdy four point lid and hinge suspension system
- GMT360 has a solid axle with a three point lid attachment
- One-piece handle and body design

WHEELS & AXLES

- Heavy-duty rubber wheels
- Solid steel axle, galvanized finish
- Wheels locked by sturdy pins
- Wheels: 8" diameter (12" on GMT 360)
- Axle: 7/8" diameter
