

CONVENTIONAL SERIES MAXON®

GPC 17 X1 & 22 X1 Cantilevers

Standard Features

- Platform automatic leveling with soft landing
- Aluminum platform
- Platform warning lights
- Dual cart stops
- Platform ground rollers
- Stainless cylinder rods with nitrate treatment
- Completely sealed flat panel main control
- Hand held control
- Cab cut-off switch

Optional Features

- Full Door Seal Kit
- Flip-Up Door with Seal Kit
- Foot controls
- Side Roll Off Guards
- Install Fixture
- 24 Volt Pump/Motor System

X1 Technology

X1 design technology allows a liftgate to raise and lower full lift capacity utilizing only one cylinder for up and down, and one for tilting. This is accomplished by the underrun bar which connects the lift and tilt arm mechanisms. This eliminates 20% of the total weight of a comparable four cylinder liftgate.

New Generation Control

The GPC main control is completely sealed and is only 3/16" thick. This design allows placement in many different locations

Control Unit with Built-In Diagnostics

LED lights allow for quick assessment and root cause tracing

Lift Switch On	Platform Position	Diagnose LED
No	Closed 90°	Off
Yes	Closed 90°	On
Yes	Open > 90°	Off
Yes	Horizontal 0°	Off
Yes	Tilted Down 0°-Minus 10°	On
Yes	Switch On Control Panel	Blink
Yes	Switch On Foot Control	Blink
Yes	Switch On Hand Control	Blink

CONVENTIONAL SERIES **MAXON**[®]

GPC 33 X4 & 44 X4 Cantilevers

Standard Features

- Aluminum platform
- Platform automatic leveling with soft landing
- Platform warning lights
- Dual cart stops
- Platform ground rollers
- Stainless cylinder rods with nitrate treatment
- Completely sealed flat panel main control
- Hand held control
- Cab cut-off switch

Optional Features

- Full Door Seal Kit
- Flip-Up Door with Seal Kit
- Foot controls
- Side Roll Off Guards
- Install Fixture
- 24 Volt Pump/Motor System

X4 Technology

X4 design technology features 2 lifting and 2 tilting cylinders that are stacked above each other. This design optimizes platform stability and leaves more space for light placement

New Generation Control

The GPC main control is completely sealed and is only 3/16" thick. This design allows placement in many different locations

Control Unit with Built-In Diagnostics
