

## 1065 Gallon Hydraulic Anti-Ice System with Three-Lane Spray Bar and Manual Application Rate Control

**Buyers Part Number:** 6192715

**Buyers Products Hydraulic Anti-Ice System with Manual Application Rate Control works with your truck's central hydraulics to effectively and efficiently apply brine to the road.**

- Brine can be sprayed to help prevent ice formation before the storm even hits.
- High density, UV-stabilized polyethylene tank features integrated baffling to reduce "sloshing" and vehicle wear.
- Stainless steel spray system can target up to three lanes at once, or use one section at a time.
- System comes standard with black powder-coated leg stand, making loading, unloading, and storing the system easy.
- Works with your truck's central hydraulics.
