- ▶ Powder Coat Paint

Optional Remotes Available

The K&K Trailer Mounted Arrow Board has a standard built-in controller that is located on the lower left corner of the panel face. However, optional wireless or wired remotes are available for easy operation and mode selection.

Concealed Battery Compartment

The K&K 2017 Arrow Board Trailer is a new, sleek design. The newly designed and easily accessible battery compartment neatly houses the batteries inside the arrow board panel itself. This design creates a clean, smooth look while deterring theft. An addition, a second solar panel mounted on the back of the panel allows the batteries to charge while the arrow board is in the transportation configuration.

Corner Jack System + Tongue

K&K's Arrow Board Trailers utilize (1) one tongue jack and (4) four corner jack system with side winding jacks to protect knuckles and to make it easier for personnel to setup and leave the unit in the field quickly and safely.

Arrow Board Trailer - General Specifications

Model # AT154896
