

LTS 360° UNLIMITED

THE LTS 360 UNLIMITED IS A LOW FEED TRACK STOCKPIILER DESIGNED TO RECEIVE LOADS DIRECTLY FROM WHEEL LOADERS AND EXCAVATORS WITH THE ADDED ADVANTAGE OF 360° SLEW FUNCTIONALITY.

[REQUEST A QUOTE](#)

The EDGE LTS 360° Unlimited Range incorporates all the benefits of the popular LTS Series product line and adds an additional design feature, with its ability to slew a complete 360° uninterrupted. Mounted on a centre slew bearing chassis the LTS 360 slewing stockpiler has brought production efficiency improvements in many ports and quarries throughout the globe.

The 360° slewing functionality, pioneered by EDGE Innovate allows the LTS 360 to simply position its tracks parallel to the vessel/wagon, allowing the unit to travel alongside the vessel/wagon without the need to readjust the orientation of the machine. The added benefit provided by the 360° slew function is further enhanced with the LTS range's ability to receive loads directly with wheel loader on all three sides of the hopper without the need to construct ramps.

With conveyor discharge lengths of up to 23m (75'), hopper capacity of up to 7m³ (9 yds³), the EDGE LTS 360 provides another solution for barge and train wagon loading and unloading, as well as creating radial stockpiles.

LTS 360° UNLIMITED FEATURES

[DOWNLOAD BROCHURE](#)

- Complete 360° slew functionality
- Unique hopper design to enable low level feed by any Excavator, Loader or grab crane
- Fully Tracked for on-site mobility
- Radial stockpiling ability
- Designed to take the impact of larger, heavier material that conventional belt feeders cannot
- Hydraulic fold down hopper extensions enables loading from all three sides
- Impressive stockpiling rates of up to 1100 tonnes per hour
- Maximum discharge height of up to 9.2m (30'3")

CHOOSE MODEL:

LTS65 360° LTS75 360°

WEIGHT	TRANSPORT WIDTH	W
30.1 TONNE (33.1UST)	3.2M (10'8")	2'
TRANSPORT LENGTH	TRANSPORT HEIGHT	TI

APPLICATIONS

- Coal
- Compost
- Construction and demolition waste (C&D)
- Ores
- Oversize Aggregates
- Salt
- Sand and gravel

OPTIONS

- Conveyor lengths from 15m to 23m (50-75')
- Feeder options: Apron pad or belt feeder
- Power source options: Diesel/Hydraulic, Electric/Hydraulic, Dual Power, Direct Electric
- Belt Scales
- Custom design hoppers
- Various hopper liners available
- Over-band magnet
- Hopper extensions
- Hydraulic fold-down head section
- Radio remote control for all functions
- Remote Stop/start feeder
