

# AST-440 Twin Auger Compactor

Easy to use and maintenance friendly

Always moves material forward

Higher payloads on materials such as OCC, wooden pallets and crates, and other dry waste

Ideal for reduction of bulky items such as furniture

Whisper quiet

Product Destruction

# AST-440 Stationary Twin Auger Compactor

The AST-440 Stationary Auger Compactor is a heavy-duty machine specifically designed for compacting large volumes of waste material. As a Stationary Compactor, the machine is best suited for dry waste such as paper, cardboard, wooden pallets, etc. This Twin 28" Auger is a high-volume compactor with a throughput of up to 6 cubic yards per minute. The machine is also able to process large bulky items without bridging in the hopper, and is commonly used for large industrial sites and production lines.

## AST-440 Specifications:

Auger Diameter	2 x 28"
Auger Speed	8 rpm
Drive Motors	2 x 20 hp
Head Weight	9,500 lbs.
Standard Voltage	460 volt, 3-phase other voltages available

## The advantages of using a Twin Auger Compactor

- » Reduces waste volume and transportation costs
- » Ideal for material destruction and reduction with wooden pallets, and furniture
- » Minimize waste storage space on site
- » Hopper load height of only 48" makes loading more convenient than competitive single auger compactors, which are much higher.
