

VAC-CON
MORE POWER TO YOU

INTRODUCING THE NEW
POWER OF PORTABILITY

NEPTUNE

TM

NP500 & NP800

Neptune™ Trailer Mounted Combination Machines

Vac-Con, in cooperation with Vector Technologies Ltd, is proud to introduce the new Neptune™ line of powerful, yet compact trailer-mounted vacuums.

These machines combine a high-pressure water jet system with a high-performance industrial vacuum.

The Neptune™ is designed & manufactured for Vac-Con, adding the power of portability to an already impressive line of truck mounted combination machines, excavators & industrial machines, all accessible through Vac-Con's extensive dealer network. The new Neptune™ provides the same rugged construction, quality & field-tested durability that both Vac-Con & Vector owners have relied upon for over three decades!

The Neptune™ can be configured to meet your specific demanding requirements. The following models & options are available:

NP500 & NP800

Trailer:

- Heavy duty tubular steel welded trailer
- 10K dual axles
- Pintle hitch
- 7 Pin connector & LED trailer lights

Power Unit & Blower Package:

- 84 HP Kubota diesel engine with shutdowns
- 650 or 990 CFM/16" Hg positive displacement blower
- 4" Lil Hummer Silencer
- Fully enclosed power unit
- 30 gallon fuel tank

Water & Spoils Tank System:

- 535 or 845 gallon spoils tank with hydraulic dump hoist & 55° dump angle
