

POLESAW

A new, ergonomic pole saw that manages the toughest of tasks. The RedMax PSTZ260S is designed for high performance with a telescopic shaft for the longest reach and excellent ergonomics for superior balance. With this powerful saw you can achieve high-end results with minimum effort.

PSTZ260S

Specifications	
Displacement (cc)	25.4
Power Output (hp)	1.34
Chain Pitch (inches)	1/4
Recommended Bar Length	10"-12"
Max Length with Cutting Equipment	156"
Weight (lbs. - Excluding Equipment)	15.4

CARB CONTROL

Continuous automatic tuning of the air and fuel mix to ensure optimal performance. Eliminates the need to for manual carburetor adjustments.

TURBO AIR CLEANING

Uses centrifugal force to separate up to 97% of all dust particles from the intake air. The result is an air filter that needs to be cleaned less frequently.

TURBO AIR CLEANING

Uses centrifugal force to separate up to 97% of all dust particles from the intake air. The result is an air filter that needs to be cleaned less frequently.

ANTI VIB

The saw handles are insulated from the engine and cutting equipment with springs, resulting in low vibration levels and good ergonomics.
