

1750 Gallon Gas-Powered Anti-Ice System With One-Lane Spray Bar and Automatic Application Rate Control

Buyers Part Number: 6191631

Buyers Products Gas-Powered Anti-Ice System with Automatic Application Rate Control uses a dependable Honda® engine to effectively and efficiently apply brine to the road.

- Brine can be sprayed to help prevent ice formation before the storm even hits.
- Applies brine based on road speed when paired with a ground speed-oriented controller (sold separately).
- High density, UV-stabilized polyethylene tank features integrated baffling to reduce "sloshing" and vehicle wear.
- Stainless steel spray system can target up to three lanes at once, or use one section at a time.
- System comes standard with black powder-coated leg stand, making loading, unloading, and storing the system easy.
- Uses a gas-powered Honda® engine.
- Micro-Trak Roadmaster™ controller provides accurate rate control and performance tracking (sold separately).
