Hydraulic Transmission Jacks

Model SKTJ 401/402

Transmission removals can be a daunting task. Why? Transmissions found in commercial vehicles are bulky, heavy, and challenging to remove — even for the most experienced technicians. Simplify the task with the Stertil-Koni heavy duty Hydraulic Transmission Jack.

Our Hydraulic Transmission Jacks are engineered to safely facilitate the removal of transmissions and awkward subassemblies while reducing the physical toll on technicians. You will appreciate the unique features found on all Stertil-Koni Transmission Jacks to help your team safely remove major assemblies with a minimal amount of time and effort.

*Simplify
Transmission Removals
and Service*
