

THREE-WAY LOADING VALVE FOR ANTI-ICE SYSTEMS

- Enables easy brine fill-ups via the tank's output port.

Buyers Products Three-Way Loading Valve for Anti-Ice Systems enables brine tanks to be filled through the bottom output port rather than using the manhole at the top. This allows for easy, ground-level fill-ups.

The valve is compatible with all Buyers Products anti-ice systems.

Three-Way Loading Valve For Anti-Ice Systems

WHERE TO BUY

HOSE REEL AND SPRAY GUN WITH ADJUSTABLE NOZZLE

- Lets you apply anti-ice solution to sidewalks, steps, and hard to reach areas.
- Activates your anti-ice system pump on demand.
- Spring retractable hose stores on a handy, compact reel.
- Adjustable spray nozzle lets you regulate flow.

Buyers Products Hose Reel and Spray Gun with Adjustable Nozzle lets you spot-apply a liquid anti-ice mixture to sidewalks, steps, bus shelters, and other hard to reach areas.

An adjustable spray nozzle activates your anti-ice system pump on demand. The 3/8 in. diameter, 50 ft hose is spring-retractable to a handy, compact reel.

Product Common Use: Ice Control, Sidewalks, Exterior Steps, Bus Shelters
