

1750 Gallon Hydraulic Anti-Ice System with Three-Lane Spray Bar and Automatic Application Rate Control

Buyers Part Number: 6192736

Works with your truck's hydraulics to apply brine. Great for roads and highways

- Brine can be sprayed to help prevent ice formation before the storm even hits.
- Applies brine based on road speed when paired with a ground speed-oriented controller (sold separately).
- High density, UV-stabilized polyethylene tank features integrated baffling to reduce "sloshing" and vehicle wear.
- Stainless steel spray bar available in one or three-lane configurations.
- System comes standard with black powder-coated leg stand, making loading, unloading, and storing the system easy.
- Works with your truck's central hydraulics.
- Micro-Trak Roadmaster™ controller provides accurate rate control and performance tracking (sold separately).
