COLUMNLIFT™ SERIES

The Next Generation BMR

MAXON®

Optional Features

- Bolt-on
- Rollers or Slide Pads
- Dual Pump & Motor
- Power Down on Demand
- Header Kit
- Dome Light
- Auxiliary Control
- Hand-Held Control
- Conspicuity Tape
- Pressure Gauge

Loadable Platform Space with Cart Stops Deployed

M-208-0718

New Optional Bolt-On Design

New bolt-on design concept reduces overall gate depth by 1.75 inches

Rollers OR Slide Pads

As an industry first, the BMR is available with rollers or slide pads

New Switch Location

Control switch is located on the column and now features an optional power down on demand button

New Pump Box / Hydraulic Design / LED Controller

Pump and battery box are mounted on a galvanized bolt-on hanger frame. Master disconnect switch is accessible from front of the pump box. Hydraulic components are mounted on a vertical plate that makes all components easily accessible for service. Controller Quick Diagnostic Built-in LED serve as function indicators

New Retention Ramp Mechanism

The new retention ramp mechanism makes it easy to lock and unlock the ramp and keeps it tightly stowed during transit

Fully Galvanized - STANDARD

Galvanization is the process by which zinc is coated over corrosive (easily rusted) metals. The process of galvanizing not only protects from corrosion of various 'soft metals' but also adds strength to the original, uncoated metal
