PUSH THROUGH THE DEPTHS OF WINTER.

The rugged MVP 3™ v-plow gives you all the power, productivity and performance you need for commercial snowplowing. With extreme flared wings, up to 45" on the heavy-duty 10'6" model, and double-acting cylinders, the MVP 3 v-plow has earned its reputation as a reliable plow by consistently delivering on what matters most—getting more jobs done faster.

T-FRAME DESIGN

T-frame provides added strength and allows blade-pitch adjustment to reduce uneven cutting edge wear.

LIFT RAM

13/4"-diameter lift ram for more lifting power.

STRUCTURAL REINFORCEMENT

Six vertical ribs on the 7'6" models and eight on the 8'6", 9'6" and 10'6" models, combined with the exclusive WESTERN* POWER BAR, provide exceptional torsional strength and rigidity, eliminating blade twisting.

ULTRALOCK DOUBLE-ACTING CYLINDERS

This standard feature locks the wings together to easily maneuver the plow as a straight blade. The doubleacting cylinders also hold the wings firmly in place for clean, efficient back dragging.

STEEL CENTER-GAP COVER

For the cleanest pass in any position, the MVP 3 v-plow has a snow-control deflector over the center hinge to help prevent snow from being lost over the top.

TRIP-EDGE PROTECTION

Each blade features independent trip-edge protection in all configurations—V, scoop or straight—to keep snow in front of the blade.

STANDARD CUTTING EDGE

A 6" high-carbon steel cutting edge comes standard, reducing wear and extending the life of the blade.

HIGH-STRENGTH STEEL BASE CHANNEL

Provides extra support along the bottom of the plow blade.

ACCESSORIES

Poly Cutting Edge | Carbide Cutting Edge 1/2" and 5/8" Steel Cutting Edges | Back Drag Edge* Curb Guards | Plow Wings | Shoe Kits | Blade Stops Rubber Snow Deflectors

Consult your local WESTERN® dealer or westernplows.com for accessory compatibility and availability.

*Not compatible with shoe kits and curb guards on v-plows

10'6" HEAVY-DUTY FEATURES

BLADE CONSTRUCTION

Thicker moldboards and a more robust base angle with additional hinge points.

HEAVY-DUTY T-FRAME

Features a solid, one-piece construction from front to back and an oscillating pivot bar.

LARGER ANGLE RAMS

Heavy-duty, 2" angle rams quickly move the snowplow in any direction.

STANDARD BLADE ANGLE STOPS

Designed to transfer extreme impacts throughout the blade's structure and reduce stress on the hydraulic rams.

STANDARD CURB GUARDS

Constructed of abrasion-resistant material to protect the outer edge of the plow from wear when plowing along sidewalks and curbs.

FREIGHT NOT INCLUDED IN PRICE OF UNIT. FREIGHT WILL BE BILLED UPON PURCHASE.
