

TAKE “PROFESSIONAL” TO THE NEXT LEVEL.

With customers counting on you, it's time to invest in a plow you can trust. There's a good reason the WESTERN® PRO-PLOW® Series 2 snowplow remains one of the best-selling straight blades in the business.

AVAILABLE IN POLY AND STEEL

The 29"-tall moldboard comes in both high-density polyethylene and powder coated steel. The durable 7'6" and 8' poly blades provide a slick surface for enhanced snow-rolling action and a maintenance-free surface. The 7'6", 8' and 8'6" steel blades feature our high-quality ULTRAFINISH™ powder coat surface.

STRUCTURAL REINFORCEMENT

Seven vertical ribs provide structural reinforcement for exceptional torsional strength and rigidity, eliminating blade twisting.

HIGH-STRENGTH STEEL BASE CHANNEL

Provides extra support along the bottom of the plow blade.

PIVOT BOLT

The 1"-diameter pivot bolt secures the plow in place, ensuring proper alignment and reducing stress on the overall plow assembly.

STANDARD BLADE SHOES

Blade shoes help to extend cutting edge and base angle life when plowing rough surfaces.

TRIP BLADE PROTECTION

Four heavy-duty coil springs protect your plow and truck by allowing the whole blade to trip when striking obstacles. Dual shock absorbers reduce jarring and soften the blade return when tripping occurs, extending the life of your truck and plow.

STANDARD CUTTING EDGE

The WESTERN® PRO-PLOW® Series 2 snowplow comes standard with a 6" high-carbon steel cutting edge to provide increased wear resistance and clean scrape.

RUBBER SNOW DEFLECTOR

The rubber snow deflector comes standard on poly moldboard models to help keep snow off of your windshield while plowing. It is available as an accessory for the powder coated steel models.

ACCESSORIES

Back Drag Edge | Curb Guards
Poly Snow Deflector | Rubber Snow Deflector
½" Steel Cutting Edge | Rubber Cutting Edge

Consult your local WESTERN dealer or westernplows.com for accessory compatibility and availability.
