trucks. Ranging in capacity from 50-110 gallons, WEATHER GUARD® Transfer Tanks feature full arc-welded, heavy 14-gauge steel construction for long-lasting durability. The interior baffle design reduces fuel movement and provides extra tank reinforcement. The lockable vented filler cap prevents excessive pressure build-up

and the threaded filler neck accepts standard 2" threaded pipe. Installation is easy using the heavy-duty lifting loops and secure plate-steel flange bed mounting points.
