

# THE DIAMONDBACK HD TRUCK COVER:

## LOAD YOUR ATVS ON TOP, STOW YOUR GEAR UNDERNEATH

### IT MAKES SENSE

Using the DiamondBack HD Truck Cover to haul your ATVs frees your truck to go where trailers can't, or allows you to tow your boat, camper or more ATVs while keeping 100% of your bed contents dry, and secure.

**USE YOUR TRUCK - THE DIAMONDBACK HD TRUCK COVER ALLOWS YOU TO BRING MORE WITH THE COVER ON THAN YOU CAN WITHOUT IT.**

**ACCESS** - Front and rear bed access means **NO MORE CLIMBING** in and out of your truck to get your stuff.

**TALL CARGO** - For tall cargo such as refrigerators or generators, the cover folds in seconds to allow for open bed space.

**SECURITY** - You've invested a lot of money in your riding, hunting and camping gear. **FEEL SAFE** knowing your gear is protected with the strength of the .100" thick aluminum diamond plate of the DiamondBack HD. The cover cannot be cracked or cut open like other covers and locks by turning  $\frac{3}{8}$ " galvanized STEEL rods under the bed rails of your truck.

**REMOVABLE** - Need your bed cover off in a hurry? The cover can be removed by one person in minutes. Individually detaching panels weigh only 50-75 lbs. a piece and slide off easily for quick removal or assembly.

**DRIVE RIGHT UP - THE LENGTH AND ARCH OF DIAMONDBACK'S 12' RAMPS CREATE AN INCLINE LESS THAN MOST TAILGATE RAMPS.**

### NOT YOUR AVERAGE RAMP:

- Ramps attach directly to the cover, eliminating kick-out.
- 3" side walls guide your tires.
- Supports 1600lbs. per pair.
- Each ramp weighs only 35 lbs.
- 12' extended length - folds to 76".

## EXTEND CAPACITY – HAUL 2 ATVS WITH A SHORT BED (6.5') TRUCK

**THE DIAMONDBACK EXTENSION:**  
The DiamondBack Extension allows you to side-load two ATVs on a short bed truck. The easily installed aluminum extension cantilevers from the truck on powder-coated steel bars.

## DESIGNED FOR SAFETY –

### ADAPTER BARS:

Adapter bars allow for the secure attachment of ramps and side rails to the DiamondBack HD Cover.

### CAB GUARDS:

For rear-loading packages, cab guards give solid rear window protection.

### TIE-DOWN CLEATS:

Twelve cleats on the perimeter of the DiamondBack HD Cover provide ample locations for securing your machines.

### SIDE RAILS:

Detachable side-loading stops keep your ATV on the truck when loading from the side.

## ATV PACKAGES:

The DiamondBack HD Truck Cover is grouped with ATV accessories to form convenient and discounted packages. Or, if you buy a DiamondBack HD and want to up-fit later, it's no problem: all DiamondBack Truck Cover accessories can be installed any time.

### REAR-LOADING PACKAGE – HAUL 1 ATV

Pull your machine up from the back of the truck. Rear loading packages include rear cab guard protection.

#### PACKAGE INCLUDES:

- DiamondBack HD Truck Cover
- Cab Guard (Reg. or HD)
- DiamondBack ATV Ramps
- Rear Adapter Bars

### SIDE-LOADING PACKAGE – HAUL 1 OR 2 ATVS

Side-loading is the only way to carry two machines. If you plan on towing, you can load and unload your ATVs without unhitching, or load one machine and maintain the ability to open a cover panel.

#### PACKAGE INCLUDES:

- DiamondBack HD Truck Cover
- DiamondBack ATV Ramps
- Side Adapter Bars
- Side Rails
- Bed Extension - (optional upgrade) for use with short beds
