

Interior Mounted Lift

P2 Series 990 / 1650 lbs

DHOLLANDIA

APPLICATION

The **DHOLLANDIA P2 Series** is a fully automatic twin-arms lift, designed for mounting inside the cargo space of the vehicle. It can be mounted at the rear doors or at the side doors on a wide range of popular van models and box trucks. The reinforced construction with 2 lift arms provides maximum lift capacity, platform stability and safety of the operators.

P2 Series lifts feature a flat platform so that carts, small machinery, hand trucks..., can be loaded with minimal effort from the operator.

-  **990 or 1650 lbs lift capacity**
-  **Flat platform level ride lift**
-  **Mounted inside the body of the vehicle**
-  **Multiple platform sizes available**
-  **Automatic bridge plate & retention ramp**
-  **2-Button handheld remote included**
