## WE'VE GOT YOU COVERED.

1

### **Dump Truck Systems, Page 4**

US Tarp Front-to-Back Dump Truck applications are perfect for your medium duty and heavy duty load containment needs for dump body systems up to 26' in length. With three different system options including Polished Aluminum, Galvanized Steel, or a durable one-piece Bulletproof Aluminum. We have complete solutions for your load containment demands.

2

### **Dump Trailer Systems, Page 10**

US Tarp Front-To-Back Dump Trailer applications offer solutions for up to 45'. Combining rugged underbody spring assemblies for extra tension with our Polished Aluminum, Galvanized Steel, durable one-piece Bulletproof Aluminum, or our extreme HD Bulletproof for longer trailers. US Tarp has the right fit for your load hauling needs.

# CONSTRUCTION & LANDSCAPE TARP SYSTEMS

US Tarp has a Front-To-Back tarp system to fit your application whether it is a dump body or a dump trailer. From a telescopic two-piece Polished Aluminum or Galvanized Steel to a durable one-piece Bulletproof design, our systems provide easy installation while keeping your load safe.

Built for the long haul, our telescopic arms move smoothly while maintaining proper spring tension. Our spring technology ensures reliability load after load.

## 3

### Landscape Systems, Page 16

US Tarp Landscape Tarp Systems are a convenient and dependable application for everyday light duty hauling. Options include either a Manual Crank or Semi-Automatic Pull Style Spring Return system that are easy to install and easy to operate.
