

**VALVE MAINTENANCE  
 TRUCK SYSTEM**

[sales@turnvalves.com](mailto:sales@turnvalves.com)

**EASY AS 1, 2, 3**

Wachs has partnered with Knapheide to improve the efficiency of the Valve Maintenance Skid (VMS) through the design of a specialized service body; this unique solution optimizes vehicle storage and equipment layout, making for an efficient workflow.

Stacked with features - Designed specifically for the application  
 - Committed to safety

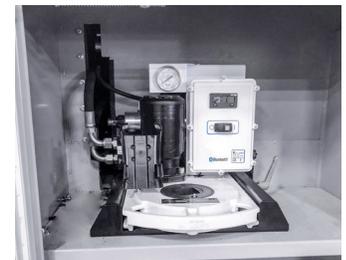

1. Order Wachs Standard SB skid and options (see SB VMS page).
2. Purchase & drop ship your GM, Ford, Ram truck rated to 19,500 GVRW and cab to axle length of 84in to Knapheide using site codes: Chevy 132052, Ford 88QNR4, Ram T8569
3. Your valve maintenance truck system will be upfitted at Knapheide and then delivered to you.
