DUMP BODIES &
LO-BOY® HOISTS

www.CRYSTEEL.com

StandardFeatures

- Passenger side includes door latched at front with cam system
- Stow-away ladder located below passenger door
- Tarp receivers on rear pillar caps
- 2 front center braces
- 2 piece offset seam floor
- Crossmemberless tubular understructure (10 ga)
- Floor Material (10 ga)

Removable upper tailgate doubles as a ramp for easy loading/unloading of materials and tools.

Swing-out door with convenient stow-away ladder offers quick and easy accessibility.

Upper tailgate swings completely away and latches securely in place when needed.

Optional sliding center patchgate controls material flow.

Standard Rear Options

Two Piece Barn Door

- Single lever mechanism
- Doors Open 270° and latch in place

Quick Drop with Removable Ramp

- Aluminum upper rear is removable to be used as a ramp
- Quick drop lower tailgate

Lo-Boy Hoist

More lifting capacity.

Built for increased lifting capacity compared to standard hoists, Crysteel offers four models of powerful Lo-Boy hoists for 10,000 to 19,000 GVW rated trucks.

The LB400, LB500, LB510 and LB520 offer the advantage of reduced weight, yet incorporate added strength for power lifting. Plus, they're easy to install and operate! Each model is specially designed to fit between the body longbeams to keep the center of gravity lower.

Double acting hydraulics provide power both up and down for better control of the load, and for achieving exact dump angles. Cylinder tubes are high strength steel, honed for a precision fit. Screw-on caps and poly-pak seals are durable and dependable.

Crysteel's Teflon® composite bearings on cylinders and center pivots never need lubrication or maintenance and offer years of trouble-free performance.

Full length subframe.

LB400, LB500, LB510 and LB520 hoists include a full length subframe for added strength. For added safety, a body prop comes factory installed.

High pressure hydraulics.

- Produce more lifting power with less weight.
- Precision cylinders are high strength honed steel tubing. Shafts are hard chromed.
- Molythane poly-pak seals outlast and outperform any on the market.

Greaseless Bearings

Crysteel Lo-Boy hoists are made in the USA and rated by the NTEA.

All Lo-Boy hoists mount low.

LB400, LB500, LB510 & LB520 LOAD CAPACITY																		
Body Length (ft)	8	9			10				11				12			14
