# RETRACTABLE UTILITY BED COVER

A job site necessity, the Retractable Utility Bed Cover is designed for service bodies. It's available as a manual spring-action cover, or with an electric motor operated by a manual switch and optional with a hands-free remote (sold separately).

## STANDARD FEATURES

### Convenient Storage

Product retracts horizontally across top of service body before naturally transitioning through a 90 degree corner to close vertically and seal to the floor of the service body.

### Powder-Coated Finish

Durable black powder-coat finish on rigid aluminum panels, interlocked for strength and durability.

### Weather Resistant Seal

Patented silicon weather hinge provides a tight seal between the aluminum panels.

### Water Management

Drain tubes at the front provide a channel for water to drain off the cover.

## THE DIFFERENCE

The Retractable Utility Bed Cover offers service body owners the metal look with heavy-gauge aluminum panels and a tough, powder-coated finish. It's a great looking retractable tonneau that's incredibly easy to use. It opens quickly with the turn of the lock knob or a flick of a switch. (Optional hands-free remote sold separately.)

## MANUAL COVER FEATURES

- Heavy-duty spring helps retract the cover smoothly.
- Built-in pull strap engages the latch at 12" intervals.
- Mechanical weather hinge provides a tight seal between aluminum panels.
- Independent latch and lock handle system offset to driver side.

## ELECTRIC COVER FEATURES

- Electromagnetic brake locks the cover in any position.
- Manual release mechanism allows opening during a power failure or emergency.
- Patented silicone weather hinge provides a tight seal between aluminum panels.
- Operating switch can be located in the cab or an exterior locking compartment, or both. Hands-free remote sold separately.

## PRODUCT COMPATABILITY

- This bed cover is available for 98", 108" & 132" service bodies and works seamlessly with the Spacemaker lid option.
- Bulkhead light not available with electric or manual options.
- Contact your local dealer for specific compatibility.
