# CRANE & SERVICE BODIES

Designed and manufactured to withstand the harshest environments and most demanding field applications while providing you with the highest quality, most user-friendly, versatile, functional and safe body available. Our heavy duty Master Mechanic™ crane and service bodies keep tools, materials, parts and equipment organized for field service, installation and maintenance work of all types.

#### SERVICE BODIES:

MM100  
MM200  
MM200HD  
MM300HD

#### CRANE BODIES:

MM112  
MM225  
MM245  
MM278  
MM378

Designed around your needs.

The design is the result of over 40 years of custom body building experience coupled with valuable input from the end-user community and our loyal customer base. They include more standard features and benefits than our competitor's standard production bodies.

Superior Features. Competitively Priced. Best overall value.

\* Shown with optional equipment.

## MASTER MECHANIC™ SERIES STANDARD FEATURES

### 1 Integrated Drip Rails

True integrated drip rail that channels water away from the surface of the body, unlike drip guttering which overfills.

### 2 External LED Work Lights

High quality exterior LED lights offer 360° rotation on the base and the head of the light giving you maximum visibility.

### 3 Infinitely Adjustable Shelving

Shelving built on uni-strut channel mounts giving the user the control to put the shelves where they want them. They're not pre-slotted like the majority of the bodies in the market.

### 4 Internal Hidden Hinges

Reading's Master Mechanic™ hidden hinges are mechanically affixed to the door frame for ease of replacement, creating true flush fit doors and weather-proof seal.

### 5 Compression Handles

Our compression handles allow fully-gloved hand operation and ergonomic design for ease of operation. *\*Appearance may vary.*

### 6 Redi-Safe Non-Skid Surfaces

Offers excellent grip, even when wet or soiled. It's applied to the entire bed, tops of all compartments and walking surfaces of the bumper.

### 7 Full-Width Crossmembers

Full-width crossmembers, as well as substructure reinforcement between the crossmembers, offer unsurpassed strength.

### 8 Automotive Grade Undercoating

True automotive grade rubberized undercoating is applied to the entire underside of the body and bumper.

### 9 Treadplate Overlay

The front and top of our bodies are reinforced with treadplate overlay, giving them a better defense against road debris and everyday use in the field.

### 10 Welding Lip On Bumper

Our bumpers come standard with a clamping lip for your welding projects and it won't catch fire in welding environments.

### 11 Integrated Tie-Downs

Fully integrated tie-down pockets in bed of body. Four tie-downs standard on the 1xx bodies, six on the 2xx & 3xx series bodies. Located below the surface of the bed, making entire bed space available.

### 12 LED Compartment Lights

Dome-style LED lighting located on ceiling of each compartment, except compartments equipped with OA brackets¹.

Heavy Duty

# MASTER MECHANIC™

Known for its premium construction, quality components, and innovative features, the Master Mechanic™ Series is our heavy duty line of crane and service bodies. With Reading's Master Mechanic™ Series, you're guaranteed a body that meets the demands of your work and stays on the road for the long haul. To ensure that you get fast service when you need it, be sure to register your Reading truck body within 30 days of purchase and contact us anytime with any concerns you may have.

## POPULAR OPTIONS

### Velocity Packages

- Available for the 100 & 200 series service bodies and 112, 225, 245, 278 & 378 series crane bodies.
- Velocity packages include alternate compartment heights, shelving & drawer units, master locking, lighting upgrades and outriggers depending on velocity package model.
- Refer to velocity package literature for complete details.

### LED Lighting

- Strip lighting in compartments works in conjunction with the crane compartment control panel, activating the lights with the push of a button
- LED strobe lighting on front and rear of body
- Additional light for cargo bed also available

### Master Locking

- Steel slide bar simultaneously locks all side compartment doors
- Painted assembly for easy manual operation
