

IN IT FOR THE LONG HAUL.

Minimize waste and maximize profits with the WESTERN® Striker™ stainless steel hopper spreader. A dual variable-speed control and an innovative chute design allow operators to easily control salt and sand spread. Ultra-durable and loaded with the latest in snow and ice control technology, the Striker hopper spreader helps you take your de-icing operation further.

CORROSION-RESISTANT HOPPER

Built with low-maintenance, rust-resistant stainless steel, the hopper is reinforced with wrap-around welded joints for long-life and protection against stress.

INNOVATIVE CHUTE DESIGN

Reduce material waste with this innovative chute design that delivers material to the areas of the spinner that cast it out and away from the truck, instead of back onto your bumper.

SHUTTER DEFLECTOR

The easy-to-adjust, circular shutter deflector allows one-side spreading operation, providing optimal control by keeping materials away from areas they aren't needed and spreading more evenly where they are.

INVERTED V

A standard inverted V located inside the hopper helps keep sufficient material weight off of the conveyor, ensuring smooth startup and flow of material.

DROP CHUTE

The adjustable-height drop chute accommodates both pickup truck and flatbed applications, ensuring a proper spreading height. A chute extension is standard with the 9' and 10' models. An extension kit is available as an accessory only on 7' and 8' models.

REMOVABLE CHUTE ASSEMBLY

For convenient access to the hitch or for material off load, the chute assembly can be removed.

DUAL-SWING CHUTE

The dual-swing chute design opens from either side to provide easy access for maintenance or material unloading.

POWER OPTIONS

In addition to the standard dual electric motors, the Striker™ stainless steel hopper spreader is available with gas and hydraulic power options.

ADDITIONAL STANDARD FEATURES

Ratchet straps, tie-down points and bolting bars are included for strapping the hopper to the truck. For additional safety, a Center High-Mounted Stop Light (CHMSL) is standard.

ACCESSORIES

Pre-Wet System | Work Light Kit
Strobe Light Kit | Spill Guard Kit
Central Point Grease Kit | Vibrator Kit
Tie-Down Chain Kit | License Plate Kit
6" Side Extensions

SIX SIZE OPTIONS

7' 1.5 cu yd | 8' 2.0 cu yd | 9' 3.0 cu yd
9' 4.5 cu yd | 10' 4.5 cu yd | 10' 6.0 cu yd

See page 5 for hopper spreader universal features.
