

SPARTAN LEAF PRO PLUS CHASSIS MOUNT

EQUIPMENT FEATURES:

Our Spartan Chassis Mount Pro + unit is mounted on a cab-over Peterbilt truck with a total vehicle length of just 24'. This shorter length, with no pull-behind trailer makes for a much tighter turning radius to navigate narrow streets and cul-de-sacs.

Features include in cab hydraulic tailgate latch and dumping controls, and driver's side joystick controls which swivel out of the way for easy access in and out.

With a hose reach of 11 foot and ditch reach of 50 inches, the Spartan Chassis Mount Pro + can pick up from the deepest of ditches and culverts!

OPTIONS

1. 99 HP John Deere Option
2. 74 & 120 HP Kohler Engine Options
3. Heavy Duty Industrial Rubber Hose
4. Directional Light Bar
5. Fuel Sending Unit with Gauge
6. Tool Rack
7. Elbow Liner
8. Clean-out door
