Note: the short pickup box provides less clearance between the cab and 5th wheel trailer compared to long box pickups. The receiver centerline of the hitch should be mounted at least 2" forward from the rear-axle of the truck chassis. When selecting a trailer and tow vehicle, it's critical that this combination provide clearance between the cab and tow vehicle for turns up to and including 90 degrees. Failure to follow this recommendation could result in the trailer contacting the cab of the tow vehicle during tight turns. Gooseneck hitch compatibility: the 5th Wheel/Gooseneck Prep Package (53W) is compatible only with the factory orderable Gooseneck Hitch Kit (15J) or dealer-installed Ford customer accessories Gooseneck Hitch by Reese - part #BC3Z-19F503-A (8ft box and 6.75 ft box).</i> | \$550.00 |

| <i>Ford is increasing the 5-year 60,000-mile limited powertrain warranty to 5-years, 100,000 miles. Only Fleet purchasers with a valid Fleet Identification Number (FIN code) will receive the extended warranty. When the sale is entered into the sales reporting system with a sales type fleet along with a valid FIN code, the warranty extension will automatically be added to the vehicle. The extension will stay with the vehicle even if it is subsequently sold to a non-fleet customer before the expiration. This extension applies to both gas and diesel powertrains. Dealers can check for the warranty extension on eligible fleet vehicles in OASIS. Please refer to the Warranty and Policy Manual section 3.13.00 Gas Engine Commercial Warranty.
