Public Safety Agencies Trust Cradlepoint

Public safety organizations across the U.S. connect and serve through Cradlepoint's LTE and 5G solutions

Whether in the field or in the station, emergency responders need to remain connected at all times. Cradlepoint's cloud-managed wireless network solutions are used by first and secondary responder agencies in every U.S. state, providing mission-critical connectivity for vehicles, mobile command centers, surveillance cameras, incident response teams, body-worn devices, stations, and more. With the ability to leverage dedicated nationwide public safety networks such as AT&T FirstNet and Verizon Frontline, agencies can connect everything they need to keep communities safe.

4,500+

public safety agencies and first responders use Cradlepoint solutions to increase responder efficiency while keeping citizens and responders safe.

Police

70%

of police departments in the **10 most populated U.S. cities**

use Cradlepoint solutions.

With a Cradlepoint router secured in each trunk, officers know that when they get into their cruiser, they will be connected – end of story.”

Sharon Jensen, IT manager of planning and analysis, Boise Police Department

Fire

100%

of fire departments in the **5 most populated U.S. cities**

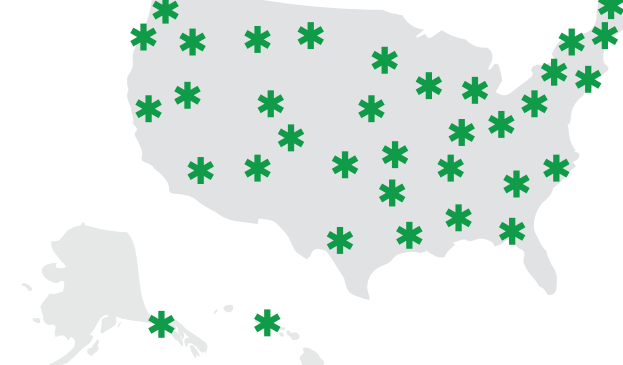

use Cradlepoint solutions.

Never have we had this much data on the frontlines. We're able to interpret what's going on and support 'our response teams' from the back end, allowing them to focus on the incident and not on the technology.”

Scott England, telecommunications systems consulting engineer, Los Angeles County Fire Department

EMS

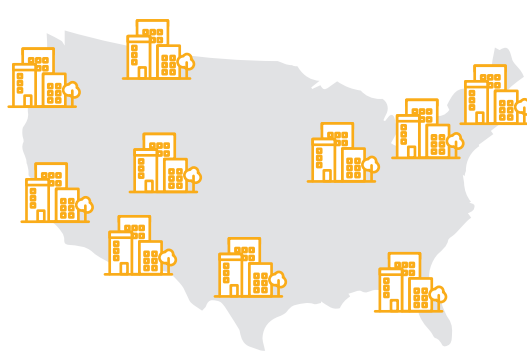

EMS

teams in all 50 states

and the District of Columbia use Cradlepoint solutions for network connectivity.

Cities

100%

of the **10 most populated cities**

use Cradlepoint solutions.

We were able to install a large number of cameras in a short period of time with minimal startup costs. Thanks to Cradlepoint's secure wireless connection, we eliminated the need for costly and time-consuming construction to run a fiber wire through the ground at each proposed location.”

Julie Cagliostro, manager of information systems, Bronxville, New York

Energy & Utilities

4 OF THE 5

largest U.S. utility companies

leverage Cradlepoint solutions.

Public Transit

THE 3

largest public transportation agencies in the U.S.

use Cradlepoint solutions, with the largest serving more than 600M rides each year.

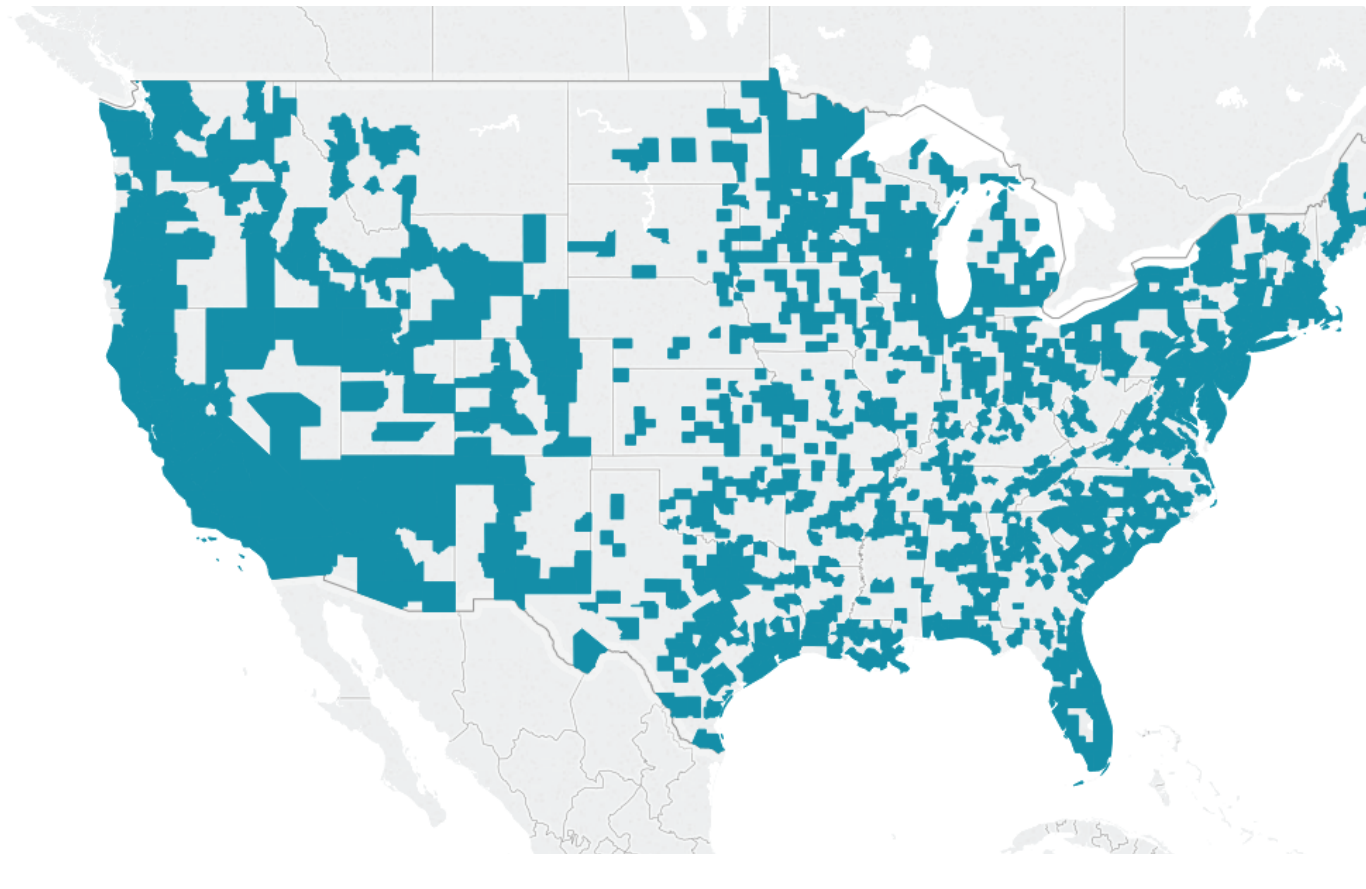

I can schedule updates to push out across the fleet (of more than 1,750 metro buses) simultaneously at 3 a.m. without requiring our team to visit any of the buses.”

Russ Mattichak, network engineer, Seattle-based King County Metro

Cradlepoint's public safety customers across the U.S.

Counties across the country use Cradlepoint to increase public safety efficiency and keep citizens and responders safer.
