RELIALERT™XC4- GPS MONITORING DEVICE

BRIEF DESCRIPTION AND PRICING

ReliAlert™XC4

The ReliAlert™XC4 is a one-piece GPS device was ergonomically designed to fit securely and comfortably on the ankle. The device's technology consists of Active/Passive GPS (access to over 75 satellites), cellular (LTE/GSM) and embedded RF receiver technology that continuously monitor, track, and report the whereabouts of supervised individuals on a real-time basis 24 hours a day, 365 days a year.

ReliAlert™XC4 is the only one-piece GPS device available in the electronic monitoring industry with patented on-board, problem-solving features such as two-way live voice communication technology that enable Agency personnel to instantaneously communicate with the supervised individual and 95-decibel siren that can be used as a first line of defense in intervention efforts. On top of these patented, one-of-a-kind

capabilities, ReliAlert™XC4 also boasts the longest battery life in the industry – 72+ hours with up to 2 weeks of backup power in Sleep Mode. The device has an internal clock designed to date and time stamp events and has memory storage of 18+ days. The device's on-board processor captures and stores all applicable inclusion/exclusion zones and schedule/curfew information (up to 500) and can store more than 29,050 recorded events and accesses wearer's compliance every two (2) seconds.

Discounted Catalog Daily Lease Rate Pricing for ReliAlertXC4 Includes: One (1) minute tracking and reporting intervals with alarms as they occur in real-time. Agency defined protocols. Instant alert notifications via email, text and/or live call. Live 24/7/365 Monitoring Center Services and live voice intervention with the supervised individual.
