# Falcon Flex™

Location-flexible license plate recognition camera designed for fast, easy deployment

Leverage the same Vehicle Fingerprint™ technology available on Flock Safety's stationary LPR with the Falcon Flex, an infrastructure-free, location-flexible license plate reader camera. Simple, mobile installation makes this vehicle detection device ideal for your ever-changing investigative needs. Less time to install means faster leads and increased case clearance.

## Evidence Capture Simplified

Combine the power of Vehicle Fingerprint recognition with lightweight, adaptable mounting options, and a complementary LTE service is ideal for temporary installation virtually anywhere.

- 1 Falcon License Plate Reader Camera
- 1 Portable mount with varying sized band clamps
- 1 Charger for internal battery
- Unlimited LTE data service + software licenses

## Smarter Reads for Actionable Leads

Not every vehicle has a plate. Search by license plates and unique vehicle characteristics including:

- Build type
- Make
- Color
- License plate state
- Missing and covered plates
- Bumper stickers
- Decals
- Roof racks
- & more

### Capture More. Recharge Less.

The Falcon Flex camera captures 30,000 license plates and Vehicle Fingerprint attributes of vehicles traveling up to 100 MPH at a maximum distance of 90 feet on a single battery charge.

### Activate From the Palm of Your Hand

On-site installation is made quick and easy with the mobile installation app for all your Android and iOS devices, including a DIY installation walkthrough and QR reader for device linking.

### Sophisticated Software Outsmarts Crime

Like all Flock Safety detection devices, the Falcon Flex license plate reader camera integrates with Flock Safety's suite of software solutions. With unlimited user licenses, every member of your agency can conduct complex searches, receive Hot List alerts, access 1B+ license plate reads each month via our nationwide network of footage sharing and more.
