SFW-WCM-LIC-FEE	WGP01092-601	Watch Commander Annual License Fee (per vehicle / per year)	\$275.00	Annual license per vehicle (per 4re system)

REDACTIVE				
Sales Part #	Internal Part #	Description	MSRP	Comments
KEY-WGV-RED-001	WGP01092-700	Software, REDACTIVE(sm), Single Seat License	\$6,243.75	*Add REDACTIVE Tower (see Servers & Services)
KEY-WGV-RED-E01	WGP01092-710	Software, REDACTIVE (sm) Enterprise, Single Seat License Key	\$7,493.75	
WAR-WGR-MNT-001	WGW00159-001	REDACTIVE Software Support and Maintenance +1 Year	\$937.50 / year	Must sell 3 Years of Support with every REDACTIVE license purchase.

Desktop Users are entitled to use the application on 1 machine but can move it to a different machine at any time (e.g. in the case of a computer upgrade).

If that happens, the REDACTIVE application has to be uninstalled from the previous machine.

The application can't be installed/used on 2 different machines using the same license, even if they're not used at the same time.

There are no restrictions on how many people can use that 1 computer to run REDACTIVE (e.g. a shared computer or shift workers), but each license applies to only 1 physical computer.

Enterprise license can be installed on 1 computer (and can be moved it to a faster one later), but it's also licensed on a per-concurrent-user basis.

For each client/server license purchased, that many users can be logged in and using REDACTIVE at the same time.

There are no limits to the number of users that can be created in REDACTIVE, only how many can use it at the same time.

For example, if an agency has 10 people that need to use REDACTIVE but only 2 licenses are purchased, only 2 of them will be able to use it at the same time. All 10 can have REDACTIVE user accounts though.

3 Years for Support must be sold with every new REDACTIVE purchase. During the support period the customer will get technical support from the REDACTIVE application vendor and software version updates.

Support can be extended for multiple years. After support period ends, customers wouldn't be entitled to future updates, but they will be able to continue using whatever version they're on.

The REDACTIVE licenses can be moved to a new machine, even if the support is expired, but it has to be the version of software that's running on the original PC.

SERVER - NETWORK HARDWARE
