SAFEGUARD EVERY STATEMENT

4RE INTERVIEW ROOM SOLUTION

Safely and confidently record, live-stream, and manage interview conversations with the 4RE Interview Room Solution. Combine the power of the WatchGuard 4RE video system with a cloud-based live-streaming solution so you can securely record and observe interviews with confidence. The interview room system is backed by robust digital evidence management software for simplified recording management.

CAPTURE EVERY CONVERSATION

Securely record interviews with the trusted 4RE video system. We offer flexible camera options, so you can select a camera that best meets your needs.

LIVESTREAM INTERVIEWS FROM ANYWHERE

No more standing outside the interview room or in an observation room. Authorized users can live-stream interviews from a laptop or desktop.

PROTECT AND PREPARE EVIDENCE

Choose between digital evidence management in the cloud or on-premises to store and manage interview recordings alongside the rest of your evidence.

MOTOROLA SOLUTIONS

CAPTURE EVERY CONVERSATION

WATCHGUARD 4RE VIDEO SYSTEM

Sometimes you only get one chance to capture that critical confession. The trusted WatchGuard 4RE Video System means you can ensure your interviews are securely recorded.

FLEXIBLE CAMERA OPTIONS

Choose from dome, pinhole or covert camera options to find a solution that best suits your agency's needs.

SIMPLE USER INTERFACE

Easily start and stop recordings with the 4RE's intuitive touchscreen interface.

BACK-UP RECORDINGS

Active recordings are automatically written to both an internal hard drive and removable USB flash drive, which is locked for data protection.
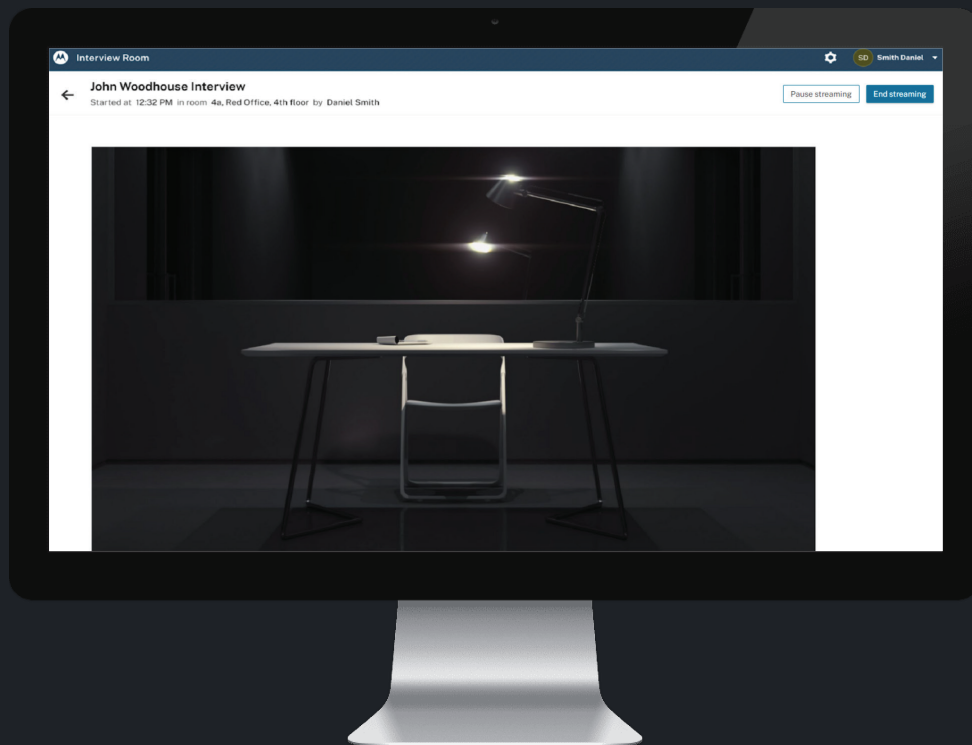

WATCH INTERVIEWS FROM ANYWHERE
INTERVIEW LIVE-STREAMING

The cloud-based Interview Room Solution allows authorized users to live-stream interviews from a laptop or desktop computer, supporting up to ten simultaneous live-streams. Viewers can also pause the live-stream, temporarily stopping streaming of audio and video when required.

PROTECT AND PREPARE EVIDENCE
DIGITAL EVIDENCE MANAGEMENT OPTIONS

Whether you are an existing Motorola Solutions digital evidence management user or are looking to update your system, the 4RE Interview Room Solution is compatible with our cloud and on-premises evidence systems. See which option is right for your agency:

COMMANDCENTRAL EVIDENCE
A cloud-based system, designed for CJIS compliance and integrated with the end-to-end CommandCentral Suite. Includes unlimited storage for interview recordings.

VIDEOMANAGER EL
Current VideoManager EL users can easily integrate the 4RE Interview Room Solution into their existing system and workflows.

INTERVIEW ROOM
IN ACTION
CONDUCT INTERVIEWS
WITH CONFIDENCE

In this scenario, see how a complete solution comes together for a secure, streamlined interview recording experience.

RECORD
The investigator enters the room where the witness is waiting, starts the recording via the 4RE touchscreen interface and begins to interview the witness.

STREAM
Another officer assigned to the case logs into the live-streaming application, selects the appropriate room, and begins the live-stream.

MANAGE
When the interview concludes, the recording is uploaded to the digital evidence management system where it can be tagged, reviewed, shared and more.
