

Drone-in-a-Box

SURVEILLANCE, MONITORING, & INSPECTIONS

Smart Autonomous Aerial Monitoring System

- **Excellent Surveillance** - Get a "birds' eye" view and see what is going on at your event, jail, facility, or anywhere you want to secure in a fixed location or "on-the-go". The entire operation, from takeoff to landing, is completely autonomous and can be performed remotely without the need for on-site intervention.
- **Easy to Use:** Tether provides continuous flight even in extreme weather conditions or can follow a vehicle. Or the *Raptor* Drone can break away and fly for 40 minutes without tether. *Osprey* Security provides a preconfigured system for fixed, perimeter protection. Either allow for easy integration with your current command-and-control software.
- **Customizable:** Multiple payload configurations available: Cameras for day, night or tracking and analytics. Extra battery for remote operation or on-the-go.
- **Drones Made in USA**
