

# Mini UV Lights

Bio-Security Solution

*UVC Experts, LE 240 GEN 2, MINIUV2*

## Mini UV-C 2-PACK Benefits:

- **Safe Disinfection:** Adopting technology used for years in hospitals and operating rooms, our Solar Storm LE UV-C technology can be an important part of disinfection for surfaces and air inside small spaces including your vehicles or the pods upstairs in dayrooms. The unit delivers a lethal germ-killing dose of UVC with 253.7nm UV lamps to the **disinfect surfaces and air inside your patrol vehicle, transport, holding cell or other smaller applications.**
- **Easy to Use:** Standard 120 V, with an adjustable timer, remote, 4 minutes is the average time with two units for front and backseat treatments. A 100 sf in less than 10 minutes. Operate using included remote and view safely through window.

Optional stand for use in small rooms such as Pods
