NCSA TECHNOLOGY PROCUREMENT BID 24-03-0222

- All Intrepid Response software modules can be used independently or integrated in different combinations to meet specific user mission and training requirements
- All software subscriptions include Intrepid Network's 24/7 Guardian Angel Support, which provides the highest quality of remote software support in the industry. Our service includes full secure external management of all Intrepid Networks' software products on Amazon Web Services, including updates, maintenance, and unlimited storage for up to 30 days.
- Intrepid Response software can operate on Android/iOS smartphones, tablets, and web-based platforms.
- All Intrepid Response software is carrier agnostic, in that it can operate with and between any wireless service operator, to include Verizon, AT&T, T-Mobile, etc
- Contracted Pricing is for cloud-based SaaS solutions only.
- Intrepid Response software demonstrations and remote web-based training are free of charge. Training can be accomplished within an hour. On-site training is available for \$3,000.00
- Please contact us at any time to address your questions, discuss how Intrepid software solutions can support your mission, and arrange a demo.
