VISCE HOSTED

ALPR Software

Leave the pain of managing your LPR server to us! Your LPR cameras are hosted in the Azure Government Cloud, by Microsoft.

CJIS and DOD certified for the highest level of security standards.

VISCE ALERT API

Our Alert API allows agencies to direct alerts to real time crime software applications so that your dispatch and crime analysts can see alerts on display with your existing surveillance cameras, other LPR providers. Third party software providers link directly to our alerts based on GEO coordinates or other criteria using our Alert API.

NDI Recognition Systems, 105 E. State Road 434, Winter Springs, Florida 32708
