

**HD Static S-Series LPR Bundle**  
BUND-Stat-S-1 cam- includes camera, modem and solar power (optional).

# C120 Compact

## ALPR CAMERA

CCD

The NDI Recognition Systems® C120 ALPR camera with Infrared (IR) LED illumination options combines a high-quality, yet affordable, plate reader camera with NDI's best-in-class ALPR software to accurately capture license plates along with recognizing vehicle make, type and color in day or night conditions in even the harshest weather.

This compact camera is ultra-versatile with various mounting options and both Power-over-Ethernet and solar power capabilities. Perfect for neighborhoods, slower traffic or remote installations that still require the full-featured capabilities of NDI's advanced license plate recognition, analytics and reporting, all designed specifically for the Law Enforcement and Public Safety markets.

### Features

- Dual-lane camera
- 3MP Global Shutter sensor design
- High-resolution lens
- Quad high-power integrated IR illuminator
- 65" operational range
- Optional CCTV Camera (RTSP Feed)
- IP66 for outdoor operation
- POE Powered

### Benefits

- Provides multi-lane ALPR coverage
- Reads license plate *plus* Make, Type and Color
- Optional CCTV overview with RTSP feed
- No additional external illuminators required
- Flexible power options *including solar!*
- Operates in severe weather conditions
- Reads License Plates day or night
- Multiple mounting options for easy deployment
- Cost effective ALPR coverage!

## Applications

■ Dual-Lane or Single-Lane

■ Neighborhood / Light Traffic

■ Fixed Installation
