Participant Monitoring App: Safe and efficient monitoring for today's environment.

A customizable check-in app utilizing biometric recognition to ensure reliable participant check-ins. aCheck includes self-reporting, multiple secure communication methods, community resource lists, document sharing, and calendar reminders allowing low risk monitoring from a distance.

aCheck

Enabling communities to become safer and more secure.

Since 1994, Attenti has been trusted by government agencies and service providers worldwide by providing advanced technology, exceptional support, and industry expertise. Our field-proven solutions improve the security of communities by enhancing public safety, protecting agency budgets, and helping participants rebuild their lives.

Key Features

Multiple Communication Options

Officer and participant can communicate via two-way video or text messages.

Biometric Identification

Facial recognition and voice verification confirm the participant's identity.

Self Reporting

Participants answer a list of supervision related questions and responses are automatically reported in EM Manager.

GPS Location and Zones

A GPS location point captured at time of check-in. Inclusion and exclusion zones aid in monitoring.

Document Upload

Allows participants to upload required case management documentation.

Resource List

A customized list of community resources available to the participant.
