AED | Patrol PC® UltraRugged®

Printer Mount System – Adapter Plate for
Brother RuggedJet 4 Series

Purpose-built for First Responders. Made in the USA.

Finally, a mobile printing solution designed for officer safety, comfort and efficiency. This printer mount can be installed in all major police vehicles, even those with partitions. Pair with our UltraRugged RhinoTab® MDT with Embedded Barcode Scanner for a complete e-ticketing solution.

- Patented, space-saving design for unrestricted interior access
- Attaches to factory headrest – no modifications or special tools required
- Allows full access to console space, electronic equipment, cup holders and center-mounted long arms
- No universal mounts – every component is designed and engineered for the specific printer and vehicle model enabling precisely located, safe and secure installation
- Precision machined 6061 T6 billet aluminum components
- Crash tested at University of Michigan's Transportation Research Institute to ensure unrestricted use of front passenger seat
- UltraRugged Printer Mount System is compatible with Brother PocketJet Series 7 and RuggedJet Series 4 printers. AED | Patrol PC is a Brother Authorized Partner
