

RH-F5

AED | Patrol PC® RhinoTab® F5
UltraRugged® Fixed Mount (Dockless) MDT

Purpose-built for First Responders. Made in the USA.

Our mixed fleet solution offers portability when you need it, fixed when you don't.

Introducing the dockless, Fixed Mount RhinoTab® UltraRugged® MDT tablet. Purpose-built and optimized exclusively for use by First Responders, the new F5 offers user safety and efficiency features standard in every Patrol PC MDT in a new budget friendly, fixed mount solution. Ideally suited for assets that require continuous MDT use such as patrol vehicles and fire engines. Optional dock connector plate makes the F5 fully compatible with any Patrol PC RhinoDock™ ensuring your entire fleet remains seamlessly connected.
