GAS DETECTION, SAFETY SERVICES,
AREA MONITORING AND MORE

OUR PURPOSE

DEAR PARTNERS IN SAFETY,

Over the last 15 years, Blackline has tirelessly pursued innovation at the forefront of connected safety. We showed the world how to meet the challenge of keeping lone workers safe and revolutionized the personal gas detection industry. With decades of experience, our team has already delivered some of the world's most advanced solutions in communications, location technology and gas detection.

Our purpose is to ensure every worker has the confidence to get the job done and return home safe.

At Blackline Safety, we strive to transform the industrial workplace through connected safety technology, increasing visibility of operations and allowing businesses around the world to keep their workforce safe.

We approach safety in a different way than most industrial companies, and we punch above our weight. We deliver the world's hardest-working range of direct-to-cloud connected personal and area gas detection and safety monitoring systems, powered by the best online compliance dashboard, automated analytics tools and data science services.

Blackline, at its core, is a service-oriented business, and we are passionate about the engineering, manufacturing and designing that make us the best at what we do. We stand behind our products, services and customers.

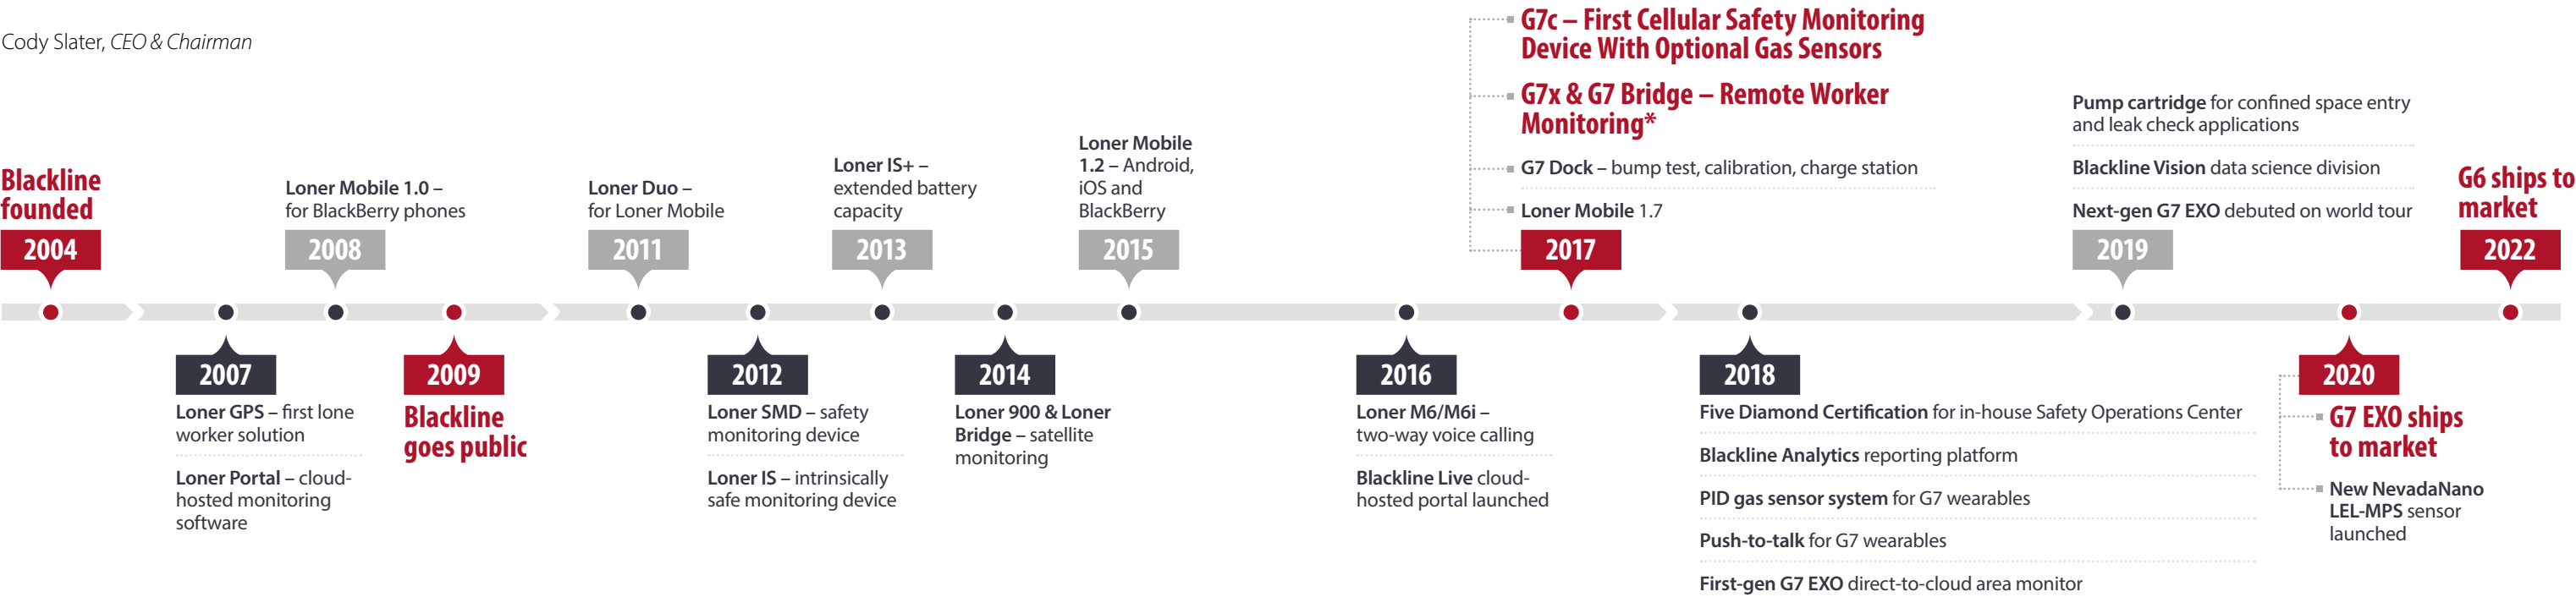

We look forward to working with you to make the world a safer place for teams in every industry.

Cody Slater, CEO & Chairman

G6 BUYING OPTIONS

G6

Transforming single-gas
detection with connectivity

G6 LEASE | Get the lowest rate

Get a low payment, over a four-year term. Record your Blackline lease as an operational expense, without touching your capital purchase budget.

\$10 / month*

G6 COMBINATION | Get a low upfront cost

Pay upfront for G6 device and pay for system access over the 4-year term of the device

\$5 / month*
with **\$228** upfront

* Monthly rates are billed annually. Other restrictions may apply. Please contact us for full details.

System Access — features included in all service plans

- LTE-M/NB-IoT cellular connectivity
- Blackline Live Portal and Analytics Essential Reporting
- Over-the-air firmware and configuration updates
- Online device assignment and compliance management
- Gas detection reporting
- Automatic data synchronization and location every 24 hours
- Find my G6
- Notifications of high gas events

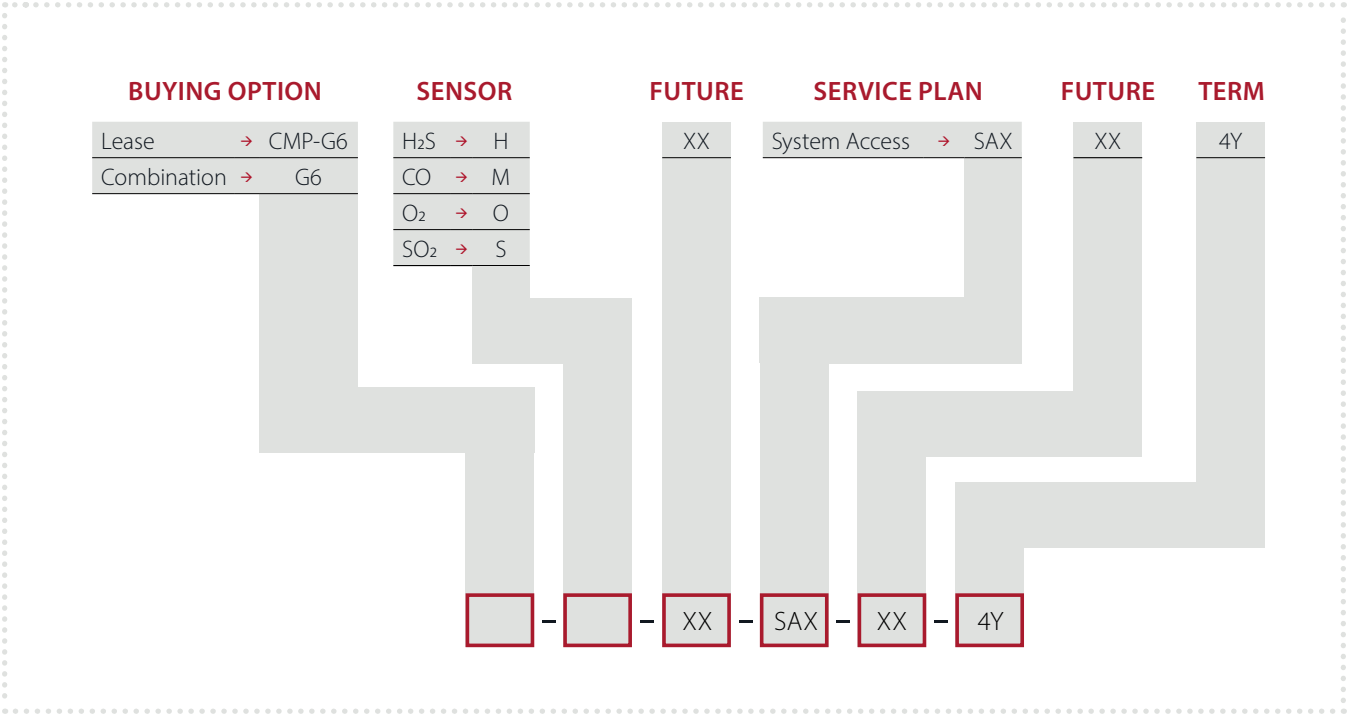

Service Term and Warranty

- 4-years

G7 BUYING OPTIONS

G7: EVERYTHING YOU NEED. NOTHING YOU DON'T.

THE ONLY SAFETY SOLUTIONS THAT WORK AS HARD AS YOU DO.

Blackline Safety G7 devices and service solutions are completely configurable to address the needs of nearly every industry, application and scenario.

We know our customers also have specific needs when it comes to financing and accessorizing their systems. Whether your business has available capital expenditure budget for a purchase of products and services, or you prefer to use an operational expense budget and take advantage of our leasing program, we have an acquisition option for you.

G7 PURCHASE | Get the lowest monthly bill*

Take advantage of your capital purchase budget through a G7 purchase — pay for hardware and system access upfront, option to add yearly service fee for additional services offered by Blackline Safety.

\$1099
Due upfront

G7 BLEND | Get a low upfront cost*

Pay for the G7 device — lease the cartridge from Blackline, providing a lifetime warranty through the service contract. Additional cartridge service plan required.

\$589
Due upfront

G7 LEASE | Pay nothing upfront*

Get a low monthly payment, amortized over four year warranty period, 20% lease fee. Record your Blackline lease as an operational expense, without touching your capital purchase budget.

\$0
Due upfront

G7 RENTAL | See [page 48](#) for details

System Access — features included in all service plans

- Over-the-air configurations & device updates
- Real-time compliance dashboard
- Powerful analytics and reporting interface
- Cloud-hosted platform with 99.9% uptime
- Blackline Analytics Essentials reports: real-time compliance, device logs, usage and compliance, events and fleet status, gas exposure

When purchasing your G7s, you may choose to purchase additional gas sensor cartridges to have on hand or to stock in inventory. Never get caught without functioning gas sensors or waste time with monitors out of commission getting serviced. If a sensor fails or reaches the end of its life, simply swap out the cartridge for a new one. Additional cartridges for G7 wearables come with a two year warranty.

1 — Cartridge

Start by choosing a Standard, Single-gas, Multi-gas diffusion or Multi-gas pump cartridge. You only need to fill out the information for the cartridge you select. This information will be used to build your hardware and service SKU.

For example: Q-FHMO

SINGLE-GAS CARTRIDGE

ACC-DOCK-STN-5-LOADED
Note: gas cylinder not included in purchase price

G7 DOCK GANGING KITS

Our ganging accessory kits include all tubing, quick-connects and valves needed to connect your G7 Docks and place them anywhere — a work bench, shop, tool box and more. With everything you need included, you can easily bump test or calibrate multiple G7 devices, and even leave them to charge in the docks when the tests are done.

SKU	PRODUCT DETAILS	PURCHASE
ACC-GANG-2	Accessory, Dock gang kit for 2 Docks	\$87
ACC-GANG-3	Accessory, Dock gang kit for 3 Docks	\$131
ACC-GANG-4	Accessory, Dock gang kit for 4 Docks	\$164
ACC-GANG-5	Accessory, Dock gang kit for 5 Docks	\$186
ACC-CASE-DOCK	Accessory, case with foam cut out to hold Dock and gas cylinder	\$360

KLICK FAST FOR G7 WEARABLES

G7 products are now more wearable than ever with the introduction of the Klick Fast system. Blackline offers a portfolio of optional Klick Fast accessories for G7 wearables that provide users with enhanced versatility in how they wear their devices.

- Easy to use. The Klick Fast Connector slides and locks easily into any Klick Fast Dock which can be used on coveralls, harnesses, and can even be placed on equipment
- Simple to install. Klick Fast Connector easily replaces our standard metal belt clip
- Click and go. Attach or unattach G7 quickly and easily, without fumbling with clips or snaps. Klick Fast gives users the option of where, and how, to carry their devices
- Versatile and customizable. Additional items can be ordered through Klick Fast directly

G7 EXO: Solutions that won't quit. For work that can't stop.

EASY TO CUSTOMIZE AND CONFIGURE, EVEN EASIER TO DEPLOY.

Designed and tested to ensure they can stand up to the harshest conditions and continue to perform when you need them most, our G7 EXO area monitors are just as tailored to your needs as our veteran portfolio of G7 wearables.

Simply pick a payment plan that works best for you and then get started configuring your system to work exactly the way you need it to. No worry, no hassle.

G7 EXO BUYING OPTIONS

G7 EXO PURCHASE | Get the lowest monthly bill

Pay for hardware upfront, option to add yearly service fee for additional services offered by Blackline Safety

\$5499

Due upfront

G7 EXO LEASE | Pay nothing upfront

Get a low monthly payment, amortized over four year warranty period, 20% lease fee.

\$0

Due upfront

G7 EXO RENTAL | See [page 48](#) for details

*All pricing shown for G7 EXO device with Multi-gas standard sensor configuration and three years system access service. System Access for \$144/year after three years.

G7 EXO BUYING OPTIONS — G7 EXO PURCHASE

ADDITIONAL CARTRIDGES

When purchasing your G7 EXOs, you may choose to purchase additional gas sensor cartridges to have on hand or to stock in inventory. Never get caught without functioning gas sensors or waste time with monitors out of commission getting serviced. If a sensor fails or reaches the end of its life, simply swap out the cartridge for a new one. Additional cartridges for G7 EXO come with a three year warranty.

1 — Gas sensors

		NH ₃	A		
		High-range NH ₃	B	A	NH ₃
		CO ₂	C	B	High-range NH ₃
		H ₂ S	H	D	COSH
		High-range H ₂ S	J	H	H ₂ S
		NO ₂	K	J	High-range H ₂ S
		Cl ₂ *	L	K	NO ₂
		CO	M	L	Cl ₂ *
		HCN	N	M	CO
		CO-H	R	N	HCN
		SO ₂	S	R	CO-H
		High-range CO	T	S	SO ₂

LEL-MPS	F	ClO ₂ *	W	W	ClO ₂ *
None	X	None	X	X	None
					O O ₂
					X None

Select your sensors

Start by choosing the sensors for your G7 EXO. You only need to fill out the information for the cartridge you select. This information will be used to build your hardware and service SKU.

For example: FHMO

Great! Now write these four values in alphabetical order.

*Not all gas sensor options will work with the pump module.

2 — SKU

Build your cartridge SKU for G7 EXO

Use your cartridge info from Step 1 to build a final SKU.
For example: J-G7EXO-CART-FHMO-3Y-R

J-G7EXO-CART- CARTRIDGE INFO (FROM STEP 1) -3Y-R

3 — Price

Calculate your price

Use your choices from Steps 1 and 2 to calculate your price.

G7 EXO can be placed nearly anywhere. If you don't happen to see a pre-built mounting option the meets your needs, Blackline can provide you with drawings of the EXO base (bottom view) for you to build your own custom mounts.

The G7 EXO start-up feature will also let you know if where you placed your unit is the perfect spot. It takes into consideration the quality of the GPS signal at that point, whether or not its orientation is correct, and more. If your mounting or placement point isn't quite right, it will let you know what to adjust and to simply run the start-up sequence again.

With a run-time of over 100 days, G7 EXO features the industry's longest-lasting battery in an area monitor. This means it doesn't need to be taken out of commission frequently to re-charge, saving time and affiliated maintenance costs.

For those wanting to keep their units running even longer, G7 EXO batteries can be removed using the HEX key accessory to be plugged into the fast charger or replaced with a fully-charged battery to maximize device run time without the hassle of other systems.

ACCESSORIES BY APPLICATION

FENCE LINE MONITORING

- Stay informed about which gases are moving along or through the perimeter of your site
- The universal mount adapter allows units to be mounted to poles, pipes, scaffolding or along other vertical or horizontal surfaces

Leave your G7 EXOs to get to work and walk away with confidence knowing that they will stay put and get the job done.

SKU	PRODUCT DETAILS	PRICE
ACC-G7EXO-UMK	G7 EXO Universal Mount	\$275
ACC-G7EXO-SC	G7 EXO safety tether	\$45

REMOTE MONITORING

- Reliable solution that works around the clock
- No need for a hardwired power source

G7 EXO integrates with a solar panel using the mounting system to provide a constant power supply for your remote monitors.

SKU	PRODUCT DETAILS	PRICE
ACC-G7EXO-SAT	Accessory, G7 EXO, satellite module*	\$2749
ACC-G7EXO-STANDOFF	G7 EXO Base (Standoff)	\$275

**Solar panel charging temperature limits: 0°C to 45°C (32°F to 113°F)

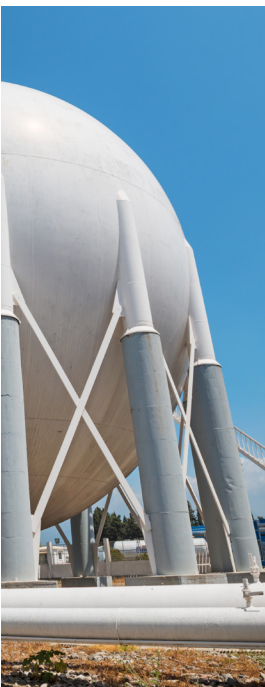

Only North American (Canada/USA) SKUs shown. For regionalized SKU options, contact your Blackline Safety representative.

CONFINED SPACE MONITORING

- Automatically sample up to four confined spaces
- Eliminate the need for re-permitting confined spaces throughout a project with a battery that will last for 30 days in constant pump operation

Rest assured the safety of your confined spaces is consistently accounted for.

SKU	PRODUCT DETAILS	PRICE
ACC-G7EXO-PUMP	G7 EXO, 4 pump module	\$2199
ACC-G7EXO-STANDOFF	G7 EXO Base (Standoff)	\$275

RENTALS

Blackline’s rental program is designed to meet your needs, regardless of the size or scope of your project.

To initiate a request for rental, please contact rentals@blacklinesafety.com with your product needs and contact information or reach out to Blackline’s Customer Care team at 1-877-869-7212.

Choose to be billed daily, weekly, monthly or in a combination. For example, for a 15-day rental, you would be billed for two weeks plus one day.

- You will be billed after 30 days or at the end of the rental term, whichever comes first
- If rentals are not returned in 15 days, Blackline will bill the daily rate for each day after the 15-day grace period until all products are returned

Shipping will be billed directly, except if devices picked-up and dropped-off in person to one of our designated locations*.

Ordering large quantities or for extended periods of time? Ask us about quantity discounts and extended-duration pricing.

All gas sensor cartridges are multi-gas diffusion models, capable of monitoring up to five gases with a COSH sensor is installed.

TIER ONE

Included in the price of your rental.
Contains: any number of standard sensors + one premium sensor

TIER TWO

\$48
Contains: any configuration with two or more premium sensors

TIER THREE

\$75
Contains: any configuration containing an advanced sensor

SENSOR CATEGORIES

Standard sensors*:

- Chlorine dioxide (ClO₂)**
- Ammonia (NH₃)
- COSH
- LEL-MPS
- Hydrogen sulfide (H₂S)
- LEL-IR
- Nitrogen dioxide (NO₂)
- Chlorine (Cl₂)**
- Carbon monoxide (CO)
- Hydrogen cyanide (HCN)
- Oxygen (O₂)
- Hydrogen-resistant carbon monoxide (CO-H)
- Sulfur dioxide (SO₂)

Premium sensors:

- Hydrogen fluoride (HF)**
- High-range ammonia (NH₃)
- Ozone (O₃)**
- High-range hydrogen sulfide (H₂S)
- High-range carbon monoxide (CO)

Advanced sensors:

- Carbon dioxide (CO₂)
- Photoionization detector (PID)

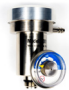

*Included with the price of all rentals
**Not compatible with G7 EXO

O2	GAS-34L-O	34L Gas Cylinder, O2 18%, N2 Balance	O	\$157
	GAS-58L-O	58L Gas Cylinder, O2 18%, N2 Balance	O	\$178
CO2	GAS-34L-C	34L Gas Cylinder, CO2 5000 ppm, Balance Air	C	\$178
	GAS-58L-C-AIR	58L Gas Cylinder, CO2, 5000 ppm, Balance Air	C	\$209
	GAS-103L-C	103L Gas Cylinder, CO2 5000 ppm, Balance Air	C	\$251
CO	GAS-34L-M	34L Gas Cylinder, CO 100 ppm , Balance Air	M, R	\$157
	GAS-58L-M-AIR	58L Gas Cylinder, CO 100 ppm, Balance Air	M, R	\$178
	GAS-103L-M	103L Gas Cylinder, CO 100 ppm, Balance Air	M, R	\$209
NO2	GAS-34L-K	34L Gas Cylinder, NO2 10 ppm, Balance Air	K	\$209
	GAS-58L-K-AIR-2	58L Gas Cylinder, NO2 10 ppm, Balance Air	K	\$251
	GAS-116L-K	116L Gas Cylinder, NO2 10 ppm, Balance Air	K	\$367
HCN	GAS-34L-N-AIR	34L Gas Cylinder, HCN 10 ppm, Balance Air	N	\$209
	GAS-58L-N-AIR	58L Gas Cylinder, HCN 10 ppm, Balance Air	N	\$251
	GAS-116L-N-AIR	116L Gas Cylinder, HCN 10ppm , Balance Air	N	\$367

SKU	PRODUCT DETAILS	Price
ACC-58L-MOUNT	Wall mount for 58L gas cylinder	\$82

As some gases don't ship in a cylinder, we recommend a gas generator from one of the following companies for customers looking to calibrate exotic gas sensors such as ozone or chlorine dioxide.

A23-14 Ozone Generator from Analytical Technologies Inc | www.analyticaltechnology.com
CAL 2000 Chlorine Dioxide Generator from Advanced Calibration Designs | www.goacd.com

BLACKLINE SERVICES

ONBOARDING & IMPLEMENTATION SERVICES

Our goal is to ensure the seamless implementation and successful adoption of your Blackline Safety connected safety solutions. Our comprehensive and tailored approach helps you maximize the value of your products and services. For your order to be fulfilled successfully, your purchase order must include one of the following Account Setup SKUs:

ACCOUNT SETUP: FOUNDATIONS, ONBOARDING, GO-LIVE!

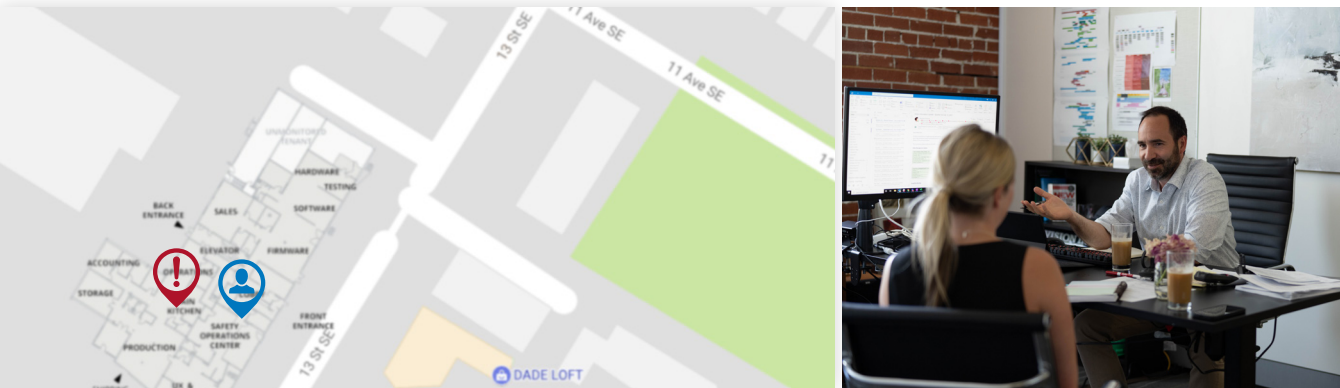

An experienced Client Implementation Coordinator will assist you remotely with planning, account setup, data upload, device configuration, testing, Emergency Response Protocol setup and user onboarding to ensure a successful safety program deployment.

You and your team will receive 1:1 guidance, support, and the tools necessary to get the most out of your product and ensure you are setup for long-term success.

After all device setup and testing is complete, your team will receive training through self-serve tools including how-to videos and guides, plus have access to a full suite of online support materials.

CUSTOMER DEVICES		
SKU	PRODUCT DETAILS	PRICE
SER-PRO-XS	Starter: Account setup: Foundations, onboarding, Go-Live (1-20 devices)	\$199
