AirgainConnect® AC-HPUE™ Antenna-Modem | For AT&T's network in the USA

For longer cable length options in 7 m or 10 m:

NOTE: For 7 m (22.9 ft) or 10 m (32.8 ft) cable options, replace the 5M in the SKU with 7M or 10M.

MSRP Example: AC-HPUE-C3W2G-Q-S-WH-10M, MSRP: \$1,508 + \$50.00 = \$1,558]

Approximately 10 cm (4 in) of cable are not usable because it is on the inside of the device.

To order HPUE in BLACK, please replace the "WH" with "BL" in the SKU

For 7m or 10m Options:

LTE	LTE + GNSS	LTE + Wi-Fi + GNSS
+\$20.00 to MSRP price per device	+\$30.00 to MSRP price per device	\$0.00 to MSRP price per device

Antenna Plus: M2M, Kiosks, Vending Machines, Digital Signage

There will be a cost increase for certain modifications to cable length and connectors for this product line. In the past all AP-M2M products have included mesh sleeving by default for cable length 7 ft and above. Moving forward, mesh sleeving will now be optional for 7ft and above SKU's. To add mesh sleeving, you will need to add "MS" to the SKU just before the color designator and there will be additional charges depending on the cable length. See comments section for each product and table below for increased pricing to add cable length Shipping: All orders will ship FCA Airgain Scottsdale.
All offers of sales of Airgain products are subject to the following terms and conditions at the time of sale. <https://www.airgain.com/standard-sales-terms-products/>

ULTRAMAX MIMO adhesive pad remount kit, White gasket	AP-CCRK-WH	\$33.00	\$30.36	
ULTRAMAX (single LTE) adhesive pad remount kit, Black gasket	AP-SQCRK-BL	\$33.00	\$30.36	
ULTRAMAX (single LTE) adhesive pad remount kit, White gasket	AP-SQCRK-WH	\$33.00	\$30.36	
Centurion or Centurion Next adhesive pad remount kit, Black flat gasket	AP-CENRK-BL	\$33.00	\$30.36	
Centurion or Centurion Next adhesive pad remount kit, White flat gasket	AP-CENRK-WH	\$33.00	\$30.36	
Centurion or Centurion Next adhesive pad remount kit, Black 2020+ Ford gasket	AP-CENRK-F-BL	\$33.00	\$30.36	
Centurion or Centurion Next adhesive pad remount kit, White 2020+ Ford gasket	AP-CENRK-F-WH	\$33.00	\$30.36	
Centurion or Centurion Next adhesive pad remount kit, If no replacement gasket is requested	AP-CENRK2	\$22.00	\$20.24	

Airgain /Antenna Plus: Configuring SKU's for Cell/LTE, WiFi, and GPS

AP- - - -

Technologies

C = Cellular and LTE (For Verizon, AT&T & Sprint)

CC = Two Cell/LTE antennas (MIMO)

W = WiFi at 2.4 & 5 GHz (802.11 abgn, ac)

G = GPS

Router-CC = In building Double Cell/LTE antenna with separate ground plane

M2M1-CC = Double Cell/LTE Antenna for Machine to Machine

Mount & GroundPlan

M = Magnetic Mount

A = Permanent Adhesive Mount

Q = Threaded Bolt Mount

B = Built in Metal Ground Plane for mounting on non-metal surfaces

R = Ribs for Ford Interceptor Utility 2020 Model and above for specific product lines like Centurion and Centurion Next (would follow the mounting style indicator in the SKU)

Connectors

S1 = TNC

S2 = SMA

S3 = BNC

S4 = SMB

S5 = Mini UHF

S6 = N type

S7 = MMCX

S8 = PL259

S9 = MCX

S10 = SMC

XC-F = FAKRA C - Female

XD-F = FAKRA D - Female

Guidelines on SKU Configuration:

- * These rules apply only to the new 4G products with LTE, WiFi.
- * All SKU start with "AP-"
- * The first section is for the **technologies**
- * The order of the technologies always starts with **Cellular**, then **WiFi**, then **GPS**.
- * Each section is separated by a hyphen
- * If you are placing the antenna on a NON-Metal surface, you will need to get the built in Metal Ground Plane: **-B**
- * If there are multiple technologies, then there will be multiple connectors
- * Connectors also follow the rule of Cellular, then WiFi, then GPS
- * All connectors are Male, unless you have indicated Female with "-F" after the connector symbol
- * If Reverse Polarity connectors are required, the symbol "RP" follows the connectors and then the number of the connector it refers to
- * If you need a different cable length (e.g. 18' instead of 15'), you put "-18" at the end of the SKI
- * If you require an extra long ferrule for the threaded bolt mount, you can get 1.25" or 2" by adding "1.25" or "2" after the Q in the SKU
- * If you ever need help configuring a SKU, please call us at (480) 295-8047 or email jfoster@antennaplus.com

Multiple Connectors: Rule - the order of connectors starts with Cellular, then WiFi, then GPS

S11 = TNC/TNC

S12 = TNC/SMA

S222 = SMA/SMA/SMA

Special Reverse Polarity: If a connector is Reverse Polarity, after the connector section, you add RP and the number of the connector it relates to

So, in an antenna with all SMA connectors, but the WiFi is RP, the SKU would be: AP-CWG-Q-S222-RP2-BL as WiFi is the second connector

Special Sex: All connectors are Male. If Female is required, add "-F" after the Connector: e.g.. "S2-F"

Color

BL = Black

WH = White

Examples

AP-CCWG-Q-S2222-RP3-WH Double Cell/LTE, WiFi & GPS, Threaded Bolt Mount, Cell/LTE both connect SMA, WiFi RP-SMA, GPS SMA, White

AP-CG-Q-S11-BL Cellular/LTE & GPS; Threaded Bolt Mount; TNC/TNC; Black

AP-CWG-BQ-S222-RP2-BL Cellular/LTE, WiFi, GPS; Built in Metal Ground Plane, Threaded Bolt Mount, SMA/RP-SMA/SMA; black

AP-Router-CC-S22-BL Double Cellular/LTE antenna designed for in-building routers/modems with a ground plane, 2 SMA connectors, color black

AP-CCWWG-A-S22222-RP34- Double Cell/LTE, Double WiFi, GPS; adhesive mount, SMA/SMA on Cell, RP-SMA/RP-SMA on WiFi, SMA on GPS; color white

AP-M2M1-CC-Q-S22-BL-6 M2M antenna with Double Cell/LTE, threaded bolt, SMA/SMA, color black, 6 feet coax cable

AP-CC-Q1.25-S22-WH Double Cell/LTE, Threaded bolt with extra long ferrule (1.25"); SMA/SMA; color white

AP-CCWWG-BQ2.00-S22222-RP345-BL-25

Double Cell/LTE, Triple WiFi, GPS. LTE=SMA/SMA; Wifi=RP-SMA on all 3, GPS=SMA, built in ground plane, threaded bolt with 2" ferrule, color black; 25' of cable
