SLATE SAFETY

Concurrently Monitoring of 100s of People in Real Time

INSIGHTS:

- Heart Rate
- GPS Location
- Core Temperature
- Haptic or LED Feedback
- Exertion
- Distance Traveled
- Fall Detection
- Tap Alert

FEATURES:

- Monitor your most valuable assets from any internet enabled device or perform the job and download the data later for evaluation

- Open integration architecture for seamless data transfer to current company systems

- Compact, discreet design allows device to blend in seamlessly under PPE

- Manage worker safety by enabling haptic or LED feedback alerts when a person is working outside biometric baselines

- Over the air' updates expand product life-time value and allow for easy deployment on future feature expansion (i.e. fall detection)
