HARDWARE-AS-A-SUBSCRIPTION

FOCUSING ON POLICING, NOT MAINTAINING COMPUTERS

Quit stressing over outdated equipment, maintenance, warranties, and large capital purchases. Our hardware-as-a-subscription solution provides state-of-the-art computing technology needed to deploy a stress free and successful mobile data computing platform - zero upfront costs and zero equipment headaches.

Peacemaker Technologies Hardware-as-a-Solution is the answer to the age-old question of maintaining technology, ensuring a stable technology platform, disposal of obsolete equipment and most importantly how to achieve more with a limited budget.

Solve all your computer woes immediately! Everything needed to run a successful technology platform can be included in a simple straight forward subscription payment. *

Our team of specialists are standing by to assess needs, develop a plan, and assist with presentations for governing bodies. Once approval is obtained our professional deployment and installation teams will prepare, schedule, and travel onsite to perform installations.
