

THE **SMARTEST** BODY CAMERA TECHNOLOGY KEEPS GETTING BETTER

BodyWorn™ by Utility, Inc. is a future-proof solution that overcomes significant pitfalls that are found in competing police body-worn cameras. Utility developed this smart device to provide agencies with greater benefits than a manually operated camera. BodyWorn automatically records, based on policies when triggers are activated. Command centers and 911 dispatchers can send live messages to BodyWorn devices and view live streaming during critical moments. The video, audio and metadata automatically and securely uploads to cloud storage, eliminating the inconvenience of physically docking the device.
