National Public Safety Group

Public Safety Software Consulting

National Public Safety Group is a unique consulting firm that solely focuses on *public safety software* projects for CAD, RMS, JMS, and Mobile solutions. With an intense focus *only* on public safety software, we offer a tremendous amount of expertise and experience to your project. NPSG assigns a group of consultants to each project to include a subject matter expert for each product, as well as selection and procurement specialists, who have a great knowledge of the software providers available today. Public Safety Software projects are a pivotal point in your agency's operations and having experts for each step of the way gives your agency better results, which means increased officer and public safety.
