DIGITALSIREN
by **PursuitAlert**

The Power to Protect.

Real-time, life-saving alerts right to your community... *with the push of a button*.

Your focus is **protecting** your community.

Now you can with the push of a button.

The DigitalSiren and Digital911 by PursuitAlert gives your agency **the power to alert the public** with life saving information, never before available, so **they can protect themselves and their families**.

With the **push of a button**, officers and dispatchers can send **incident-specific alerts to citizens** within a specific radius of the emergency. This includes:
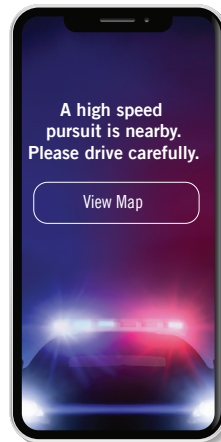

- **Code3 Response**
- **High speed pursuits**
- **Emergency vehicle approaching or stopped ahead**
- **Active shooter and threats**
- **Wrong-way, drunk, or reckless driver**
- **Lost child or elderly adult, and more...**

how does the **DigitalSiren** work?

plugs directly into in-car laptop.

The DigitalSiren system is **easily installed** with our cutting-edge, portable alert device **plugged directly into the in-car laptop**.

A high speed pursuit is nearby. Please drive carefully.

View Map

When a local emergency response or law enforcement critical incident occurs, the officer **pushes the appropriate button** to send a **geographical alert to the nearby public**.

Citizens within that area are **immediately alerted** of the incident on their mobile phones by the **free-to-download DigitalSiren app** to empower them with situational awareness.

Plus, **empower your 911 dispatchers** with the ability to send alerts in seconds. Our 911 portal option allows dispatchers to quickly notify the community of emergency incidents directly from their call center.

In an emergency, **every second counts.**

Simply save lives with the DigitalSiren by PursuitAlert.
